**LIMITED REVIEW REPORT  
FOR THE CONSOLIDATED INTERIM FINANCIAL INFORMATION**

**To the Board of Directors of Kuveyt Türk Katılım Bankası A.Ş.**

**Introduction**

We have reviewed the accompanying consolidated statement of financial position of Kuveyt Türk Katılım Bankası A.Ş. (“the Bank”) and its consolidated financial affiliates (together will be referred as “the Group”) as at 31 March 2017, and the consolidated statement of income, consolidated statement of income and expense items under shareholders’ equity, consolidated statement of changes in shareholders’ equity and consolidated statement of cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Bank management is responsible for the preparation and fair presentation of the accompanying interim financial information in accordance with “the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Regulations” including the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standard 34 “Interim Financial Reporting” principles for the matters not legislated by the aforementioned regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

**Scope of Review**

We conducted our review in accordance with the Independent Auditing Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

## **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position of Kuveyt Türk Katılım Bankası A.Ş. and its financial affiliates as at 31 March 2017, and of the results of its operations and its cash flows for the three-month period then ended in accordance with the BRSA Accounting and Reporting Regulations.

## **Report on Other Legal and Regulatory Requirements**

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the Management's interim report included in Section 8 of the accompanying financial statements, is not presented fairly, in all material respects, and is not consistent with the reviewed interim financial statements and the explanatory notes.

## **Additional paragraph for English translation:**

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying consolidated financial statements. The accounting principles used in the preparation of the accompanying consolidated financial statements differ materially from IFRS. Accordingly, the accompanying consolidated financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

**SECTION THREE**  
**ACCOUNTING PRINCIPLES**

**I. Explanations on basis of presentation**

**a. The preparation of the consolidated financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on Accounting Applications for Banks and Safeguarding of Documents:**

The Parent Bank prepares its financial statements in accordance with “the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Regulation” which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations.

**b. Classifications**

None.

**c. Accounting policies and valuation principles applied in the preparation of consolidated financial statements:**

The consolidated financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities held for trading carried at fair value.

The preparation of consolidated financial statements in conformity with TAS requires the Bank management to make assumptions and estimates with respect to assets and liabilities on the balance sheet and contingent issues outstanding as of the balance sheet date. These assumptions and estimates are mainly related with the determination of the fair values of the financial instruments and determination of the impairments on assets and these assumptions are being reviewed regularly and, when necessary, appropriate corrections are made and the effects of these corrections are reflected to the income statement.

**d. Preparation of the financial statements in the current purchasing power of money:**

Until 31 December 2004, the financial statements of the Parent Bank were subject to inflation adjustments in accordance with Turkish Accounting Standard No: 29 “Financial Reporting in Hyperinflationary Economies” (“TAS 29”). BRSA explained with its decision numbered 1623 and dated 21 April 2005 and its circular dated 28 April 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied beginning from 1 January 2005.

**II. Explanations on strategy of using financial instruments and foreign currency transactions**

The Group follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Bank’s exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Bank’s equity. The assets-liabilities committee (ALCO) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

Net investment hedge accounting is applied between net investments in foreign subsidiaries and lending and participation accounts and exchange differences arising from translation of net foreign currency denominated liabilities and foreign currency loans and participation accounts into TL are accounted under other profit reserves and hedge funds under equity respectively.

**II. Explanations on strategy of using financial instruments and foreign currency transactions (continued)**

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates published by the Central Bank of Turkey converting them into Turkish Lira. Valuation differences of foreign currencies have been recognized in the income statement under the 'Net foreign exchange income/expense' account. The foreign currency net investment in consolidated foreign subsidiaries is translated into Turkish Lira using the exchange rate prevailing at the balance sheet date for their assets and liabilities and average exchange rate for their income statement items. The currency translation gain arising from the consolidated subsidiaries' foreign currency differences has been recorded in "Other Profit Reserves" under shareholders' equity.

The Group's portion of risk regarding loans originating from participation accounts followed in receivables to be written off, doubtful commission, fees and other receivables, uncollectible loans and other receivables, along with foreign currency (FC) loans and receivables originating from the Bank's equity and private current accounts are converted to Turkish Lira with the rates prevailing at the date of the transfer of such receivables to non-performing loan portfolio. The participation accounts' portion of the risk of the foreign currency loans and FC pegged loans, originating from participation accounts, is evaluated with the current foreign currency rates and the differences are recorded foreign currency gains/losses account in the income statement.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement. There are no foreign currency differences capitalized by the Group.

**III. Information about the Consolidated Subsidiaries**

The consolidated financial statements have been prepared in accordance with the "Turkish Accounting Standard for the Consolidated and Separate Financial Statements ("TAS 27").

The subsidiaries included in consolidation and their places of incorporation, nature of activities and shareholding percentages are as follows:

Description	Address (City/Country)	Principal Activity	31 March 2017	31 December 2016	Consolidation Method

The Parent Bank and its consolidated subsidiaries of the Parent Bank, as a whole, are named as "Group".

Consolidation principles of subsidiaries:

Subsidiaries are the entities controlled directly or indirectly by the Parent Bank. Subsidiaries are consolidated using the full consolidation method. Financial statements of related subsidiaries are consolidated from the date when the control is transferred to the Parent Bank.

**NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 31 MARCH 2017**

**III. Information about the Consolidated Subsidiaries (continued)**

Control is received as the Bank has more than half of the voting rights directly or indirectly through subsidiaries or not has majority but has privileged shares or has half of the voting rights with respect to agreements made with other shareholders or has authority to manage financial and operating policies of the company through a regulation or an agreement or has power to control the majority of votes at the board of directors or at executive organ containing these rights or has power to appoint or disposal majority of the members of the board of directors.

In the full consolidation method, 100% of subsidiaries' assets, liabilities, income, expense and off-balance sheet items are combined with the Parent Bank's assets, liabilities, and income, expense and off-balance sheet items. The carrying amount of the Group's investment in each subsidiary and the Group's portion of the cost value of the capital of each subsidiary are eliminated. Intragroup balances and intragroup transactions and resulting unrealized profits and losses are eliminated. Minority interests in the net income of consolidated subsidiaries are identified and adjusted against the income of the Group in order to arrive at the net income attributable to the Group and presented separately in the Group's income.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

**IV. Explanations on forward transactions and option contracts and derivative instruments**

The Group enters into forward agreements to decrease its currency risk and to manage its foreign currency liquidity. The Bank classifies its derivative instruments as "Derivative Financial Instruments Held for Hedging Purposes" and "Derivative Financial Instruments Held for Trading" in accordance with "TAS 39". Even though some derivative transactions economically hedge risk, since all necessary conditions for hedge accounting are not met, they are accounted for as "held for trading" within the framework of "TAS 39", and are reflected in the "Derivative Financial Assets/Liabilities Held for Trading" account in the balance sheet. The Bank has no derivative financial assets/liabilities for hedging purposes as of balance sheet date.

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their notional amounts.

Fair values of foreign currency forward transactions and swaps are calculated by using the discounted cash flow model. Differences resulting from the changes in the fair values of derivatives held for trading are accounted under 'Trading Income/Loss' line in the income statement.

Embedded derivatives are separated from the host contract if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative and the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss. Embedded derivatives are accounted as derivative instruments in-line with "TAS 39". If the embedded derivatives are closely related with the host contract, embedded derivatives are accounted for in-line with the relevant standard applicable for the host contract.

The Group enters into profit share and cross currency swap transactions in order to hedge the change in fair value of fixed-rate financial instruments. While applying fair value hedge accounting, the changes in fair values of hedging instrument and hedged item are recognised in income statement. If the hedging is effective, the changes in fair value of the hedged item is presented in statement of financial position together with the fixed-rate loan, and in case of fixed-rate financial assets available for sale, such changes are reclassified from shareholders' equity to income statement.

The Group performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the "Dollar off-set model" and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness. The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

While discontinuing cash flow hedge accounting, the cumulative gains/losses recognised in shareholders' equity and presented under hedging reserves are continued to be kept in this account. When the cash flows of hedged item are recognised in income statement, the gain/losses accounted for under shareholders' equity, are recognised in income statement.

**V. Explanations on profit share income and expense**

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. In accordance with the related regulation, the profit share accruals of non-performing loans are cancelled and are not recorded until the profit share income is realized.

The Group calculates expense accrual in accordance with the unit value calculation method on profit/loss sharing accounts and reflects these amounts in “Funds Collected” account on the balance sheet.

**VI. Explanations on fees and commission income and expenses**

Except for the fees and commission income and expenses obtained for some banking services which are recorded as income when collected, fees and commission income/expenses are reflected in the income statement over the period of the related transaction.

In accordance with the provisions of TAS, commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the “Unearned Revenues” account under “Other Liabilities” on the balance sheet.

**VII. Explanations on financial assets**

The Group classifies and accounts for its financial assets as “Fair value through profit/loss”, “Available for sale”, and Loans and receivables” or “Held to maturity”. Sale and purchase transactions of the financial assets mentioned above are recognized at the ‘Settlement dates’. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of the investment.

**a. Financial assets at fair value through profit or loss:**

This category has two sub categories: “Trading financial assets” and “Financial assets designated at fair value through profit/loss at initial recognition”.

Trading financial assets are financial assets which are either acquired for generating a profit from short-term fluctuations in prices or dealers’ margin, or are financial assets included in a portfolio and derivative instruments in which a pattern of short-term profit making exists.

Trading financial assets are initially recognized at transaction prices, which are assumed to be the fair value, and subsequently measured at fair value. All gains and losses arising from these valuations are reflected in the income statement.

Other than trading financial assets, the Group has no financial assets at fair value through profit or loss.

**b. Financial assets available for sale:**

Financial assets available for sale are initially recognized at cost; which reflects their fair values; including the transaction costs. Financial assets classified as available for sale financial assets which do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less impairment, if any.

Financial assets available-for-sale gains and losses are valued using internal rate of return and recorded in the income statement as profit share income. Financial assets available-for-sale profit share discounts recognized in the profit/share account, current value differences recognized in the “securities value increase fund” under the shareholders’ equity. In case of sales, the realized gain/losses in the shareholders’ equity are recognized directly in the income statement.

**VII. Explanations on financial assets (continued)**

**c. Loans and receivables:**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not listed in an active market and are not classified as held for trading, financial assets at the fair value through profit or loss or as available for sale. Loans and receivables are initially recognized at cost, which is assumed to reflect their fair value and subsequently recognized at the amortized cost calculated using the internal rate of return method. The expenses incurred for the loans and receivables received as collateral are not considered as transaction costs and are recognized in the expense accounts.

**d. Held to maturity financial assets:**

Held to maturity financial assets are financial assets with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity that are not classified under 'Loans and receivables'. Held to maturity financial assets are initially recognized at cost which is assumed to reflect their fair value, and subsequently carried at 'Amortized Cost' using the 'Internal Rate of Return'. Profit share income from held to maturity financial assets is reflected in the income statement. The Group does not have any held to maturity financial assets as of the balance sheet date.

**VIII. Explanations on impairment of financial assets**

At each balance sheet date an assessment is made as to whether there is objective evidence that a financial asset or group of financial assets is impaired. If such evidence exists, impairment is provided for financial asset categories as explained below.

**i) Loans and receivables:**

If there is objective evidence that the loans might not be collected, the Parent Bank reclassifies such loans to III. IV. and V. groups and provides impairment reserve in accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on 1 November 2006 in the Official Gazette No: 26333. For the loans with poor financial position and/or payment capability, the Bank can provide a specific impairment reserve in excess of the amounts calculated using the minimum required rates for the related group.

Collections related to the provisions provided in the current period for such loans are deducted from "Provisions for Loan losses and Other Receivables" account in the income statement. Subsequent recoveries of amounts previously written off or provisions made in prior periods are included in "Other Operating Income" in the income statement.

**ii) Financial assets held to maturity:**

If there is objective evidence indicating that the value of financial assets held to maturity is impaired, the amount of the loss is measured as the difference between the present values of future estimated cash flows discounted using the original profit share and the carrying value; provision is made for impairment and the provision is associated with expense accounts.

**iii) Financial assets available for sale:**

If there is objective evidence indicating that the fair value of an available for sale financial asset, for which decreases in the fair value has been accounted under the equity, has been impaired then the total loss which was accounted directly in the equity is transferred from equity to the income statement.

Impairment losses recognized in the income statement related to the investments in equity instruments classified as available for sale financial assets cannot be reversed through the income statement. If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on equity instruments cannot be reversed.

**IX. Explanations on offsetting of financial assets and liabilities**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

**X. Explanations on sale and repurchase agreements and lending of securities**

Central Bank of the Republic of Turkey (“CBRT”) made some changes on orders for open market transactions (“OMT”) and prepared an additional frame contract for participation banks in order to present rent certificates to open market operations of CBRT in accordance with the principles of participation banks. According to this agreement; a new type of transaction was formed which enables participation banks to resell or repurchase rent certificates on their portfolio to CBRT when they are in need of funding or in attempt to evaluate the excess liquidity. In this content, initial OMT transaction was performed with CBRT on 14 June 2013 by selling rent certificates that are recognized in the assets of the Bank in return for conditional repurchasing. Beginning from this date, the Bank performs purchase tenders which are held by CBRT of which maturities are weekly; in return for Treasury rent certificates that are reported as assets in balance sheet in order to raise funds.

As of 31 March 2017, the Group has not any repurchasing agreements (31 December 2016 – TL 1,219,873 ).

**XI. Explanations on assets held for sale and discontinued operations and related liabilities**

As mandated by the Banking Act 5411 Article 57 “Banks cannot participate in commercial real-estate and commodity trade with the exception of real-estate and commodity based agreements within the scope of Capital Markets Act No. 2499, and precious metal trade as seen appropriate by the board, and cannot participate in partnerships with firms whose main business activity is commercial real-estate, with the exception of real-estate investment partnerships and companies that finance mortgaged residential estates. The rules and procedures regarding the sales of real-estate and commodities that were acquired due to receivables and debtors’ obligations to the bank are determined by the board.”

Assets that meet the criteria for classification as assets held for sale are measured at the lower of the carrying amount of assets and fair value less any costs to be incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, the sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset (or the disposal group) together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset (or the disposal group) should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal over one year. If such delay arises from any events and conditions beyond the control of the entity and there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or disposal group) can remain to be classified as assets (or disposal group) held for sale. Extension of the period necessary to complete the sale, does not avoid the classification of the related asset (or disposal group) to be classified as asset held for sale.

On the other hand properties acquired by the Group due to receivables and debtors’ obligations to the Group are reflected as assets held for sale in the financial statements provided that there is a contracted term sale agreement.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale. Discontinued operations are presented separately in the income statement. The Parent Bank has no discontinued operations.

**XII. Explanations on goodwill and other intangible assets**

Intangible assets are stated at cost adjusted for inflation until 31 December 2004, less provision for impairment, if any, and accumulated amortization and amortized with straight-line method.

The other intangible assets of the Group comprise mainly computer software. The useful lives of such assets acquired prior to 2004 have been determined as 5 years and for the year 2004 and forthcoming years, as 3 years.

There is no goodwill related to associates and subsidiaries.

**XIII. Explanations on tangible assets**

Fixed assets are stated at cost, less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets. The annual rates used for amortization are as follows:

Property	2%
Movables, Leased assets	6.67% - 20%

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date. Leasehold improvements are depreciated over the term of the lease agreements by straight-line method.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than its carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed.

Capital expenditures, which increase the capacity of the tangible asset and increase the future benefit, are added to the cost of the property, plant and equipment. Investment expenditures consist of cost elements such as extending the useful life of the asset, increasing the service capacity of the asset, increasing the quality of the produced goods or services, or decreasing the cost.

Property held for long-term rental yields and/or capital appreciation is classified as investment property. Investment properties are stated at cost less accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

**XIV. Explanations on leasing transactions**

*Group as a lessee*

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of these amounts is the lower of fair value of the leased asset or the present value of the lease payments. The direct costs incurred during a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets and if a diminution in recoverable value of the leased asset is identified, a provision for impairment is recognized.

Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term.

*Group as a lessor*

The Parent Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Group presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

**XV. Explanations on provisions and contingent liabilities**

Provisions and contingent liabilities are accounted for in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (“TAS 37”).

Provisions are recognized when the Group has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The Bank recognizes provisions for obligations which arose from prior periods in current financial year, only if, the possibility of realization is high and a reliable estimation can be made.

Provisions are recognized for obligations which arose from prior periods in current financial year, only if, the possibility of realization is high and a reliable estimation can be made. A provision is provided if liabilities have been originated as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a “Contingent” liability and is disclosed in the related notes to the financial statements.

**XVI. Explanations on liabilities relating to employee benefits**

**a) Defined benefit plans:**

In accordance with existing labor law, the Group is required to make severance pay to each employee who has completed over one year of service with the Group and who retires or quits the employment to receive old age or disability benefits, to fulfil the compulsory military service, because of the marriage of females employees or because of the other compulsive reasons as defined in the laws and whose employment is terminated due to reasons other than resignation or misconduct.

The retirement pay provision recognized in the accompanying financial statements, is calculated based on “Turkish Accounting Standard on Employee Benefits (“TAS 19””, and these liabilities are calculated by an independent actuary firm. Group is accounted all actuarial profit and loss under Statement of other Comprehensive Income

The Group’s employees are not members of any pension fund, foundations, union or other similar entities.

**b) Defined contribution plans:**

The Parent Bank pays defined contribution plans to publicly administered Social Security Funds for its employees as mandated by the Social Security Association. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

**c) Short term benefits to employees:**

In accordance with “TAS 19”, vacation pay liabilities are defined as “Short Term Benefits to Employees” and accrued as earned.

Group management calculates bonus accrual if it foresees that the budgeted year-end figures approved by the Board of Directors are attainable.

**XVII. Explanations on taxation**

**Current tax**

The corporate tax rate in Turkey is 20%. This rate is applied on taxable income which is calculated by adjusting the income before tax for certain disallowable expenses, tax exempt income and other allowances. No further tax is applicable unless the profit is distributed. According to the tax code, each quarter advance tax amount is calculated using a rate of 20% over tax base and paid, then the paid advance taxes are deducted from the corporate tax liability that is calculated for the year.

Withholding taxes is not applied to dividends distributed to companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey. With the Council of Minister's decision numbered 2009/14593 and 2009/14594 which are published in official gazette numbered 27130 and dated 3 February 2009, some deduction rates in 15th and 30th articles of the corporate tax law numbered 5520 were re-determined. In accordance with this, dividends distributed to companies other than companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey are subject to 15% withholding taxes. Double tax treaty agreements are also taken into consideration during the application of withholding taxes on dividends distributed to real persons and to foreign based taxpayers. Addition of profit to share capital is not considered as dividend distributed therefore no withholding taxes is applied.

Each quarter advance tax amount is calculated using a rate of 20% over tax base and Corporate tax returns are filed by the fourteenth day of the second month following the balance sheet date and taxes is paid by the seventeenth day of the second until evening. Paid advance taxes are paid during the year are belong to the current year, then the paid advance taxes are deducted from the corporate tax liability that is calculated for the year. If the balance of paid advance taxes remains after deduction of paid advance taxes, it can be paid back in cash or it can be deducted from financial loans to the government.

Shares held for at least two years and 75% of real estate proceeds are exempt from tax to the extent that they are included in capital as required in Corporate Tax Law or they are held under a special account in liabilities for five years.

For the purpose of issuance of certificate of leasing immovables to resource institutions, with the sale of asset leasing companies, the scope of Financial Leasing, Factoring and Financing Companies Law No.6361, dated 21 November 2012 in order to lease it back and in case of taking back at the end of the contract, with the sale of financial leasing companies and asset leasing by asset leasing companies, for gains from the sale of the immovable property inherited from the institution applies this rate as 100% and for the immovable is not compulsory to be in assets at least for a period of two years. But the mentioned immovable's; except in case of failure to fulfill the obligations arising from the source institution, the lesser or leasing agreement, immovable in question by the asset leasing company, in case of selling a third person or institutions, these immovable's with the carrying value before its transfer to resource institution or asset leasing in lesser or asset leasing company, in mentioned institutions taking into consideration the total amount of depreciation is taxable for corporation engaged in the sale.

Corporate tax returns are filed by the twenty fifth day of the fourth month following the balance sheet date and taxes is paid in one instalment by the end of that month.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. However, losses cannot be carried back to offset profits from previous periods. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments.

As of 31 March 2017, the tax rates applied in foreign countries where the Group operates is as follow:

<b>Country</b>	<b>Tax Rate</b>
Germany	15%
The United Arab Emirates	0%

**XVII. Explanations on taxation (continued)**

*Deferred tax*

The Group calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with “Turkish Accounting Standard for Income Taxes” (“TAS 12”). Deferred tax asset is calculated on all temporary differences other than general provisions to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis. If transactions and events are recorded directly in the shareholders’ equity, the related tax effects are recognized directly in the shareholders’ equity.

**XVIII. Explanations on additional disclosures on borrowings**

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Group does not apply hedging techniques on related borrowings.

The Group has not issued convertible bonds.

**XIX. Explanations on share certificates issued**

There is no significant amount of transaction costs on Parent Bank about share certificates.

**XX. Explanations on acceptances and availed drafts**

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

**XXI. Explanations on government grants**

There are no government grants received by the Group.

**XXII. Explanations on segment reporting**

The Group operates in three main segments; Retail and Enterprise Banking; Commercial Banking; Corporate and International Banking, Banking. Each segment operates with unique products, and the operational results are followed based on these segments.

Segment reporting is disclosed in Section Four, Note IX.

**XXIII. Explanations on other matters**

There are no other matters to be disclosed by the Group.

**XXIV. Additional paragraph for convenience translation**

The effects of differences between accounting principles and standards set out by regulations in conformity with article 37 of the Banking Act No. 5411, the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying consolidated financial statements. **II. Explanations on consolidated currency risk**

Foreign currency risk represents the Group's exposure to loss due to the changes in foreign currency exchange rates. All foreign currency assets, liabilities and foreign currency forward transactions are considered in calculation of capital to be employed for foreign currency risk according to Standard Method.

The Parent Bank monitors daily the designated limits set by the Board of Directors and additionally observes the possible value changes in foreign currency positions. The limits are determined and followed both for the net foreign currency position and for the cross exchange rate risk within the position. As a tool of foreign currency risk management, foreign currency forward transactions are used when necessary to mitigate the risk.

As of 31 March 2017, the Groups carries a net foreign currency long position of TL 1,670,229 (31 December 2016 – TL 4,261,855 long position) comprising TL 1,525,683 balance sheet short position (31 December 2016 - TL 4,152,382 short position) and TL 144,546 off balance sheet long position (31 December 2016 - TL 109,473 long position).

The announced current foreign exchange buying rates of the Parent Bank as of financial statements date and the previous five working days are as follows (Full TL):

<b>Leverage ratio</b>			
15	Leverage ratio	5.62	5.86

(\*) Amounts in the table are three-month average amounts.

In the consolidated basis, the Group's balance sheet date in the last months of the past three months, calculated on the basis of the arithmetic average of the nominal value in the leverage ratio was 5.62% (31 December 2016 - 5.86%) were realized. The main reason for the changes compared to the previous period compared to other off-balance sheet items is higher than the increase in risk item. According to this, while the core capital is observed an increase in profit for the period increased by 3% and the balance-sheet risks borne amount, balance sheet items showed a 4% increase, also off-balance sheet items increased 14%. Accordingly, the leverage ratio of the current period compared to the previous year shows an increase of 24 basis points.

**VI. Explanations on risk management**

Risk Management System refers to the Board of Directors, the Audit Committee, the Risk Management Committee, Asset-Liability Committee (“ALCO”) and the Risk Management Department (“RMD”) which has been composed in order to manage systemic risks that the Bank is exposed. The Board of Directors is the owner of the Bank's Risk Management System and ensures the establishment of an effective, sufficient and appropriate risk management system as well as the continuity of the system. The main objective of the Bank's Risk Management System is to identify, measure, monitor and control the risks that the Bank is exposed to, by determining the policies, limits and procedures to control, to monitor, and if necessary to change the risk-return structure of the Bank's future cash flows and the level & the quality of related activities.

In accordance with Group’s strategies, risk policies and vision, the analyses that Risk Management Service presents to Internal Systems Committee and Audit Committee are credit risks, market risks, liquidity risks, operational risks and IT risk evaluations. Besides, in accordance to market trends, economic conduct and Bank’s strategic growth, capital adequacy stress test and scenario analyses, evaluation of economic development in the World and Turkey are presented to Internal Systems Committee and Board of Directors by Risk Management Service. These analyses contribute to Bank Top Management’s resolution process about risk appetite and awareness of risks, capital adequacy, strategy revisions and future estimation.

In addition, Risk Management Service verifies its own coordination to be ready proactively in business availability of Kuveyt Türk and situations connected with it.

Risk Management Service continues risk monitoring and analyzing operations in accordance to Board of Director’s Kuveyt Türk’s mission, vision and growth strategy to prevent the potential risks. In this context credit and market risks, liquidity risk, operational risks and all limits, internal personal scoring and corporate rating modeling with IT risks issues, IT risk evaluation, operational lost data base, key risk indicators, operational risk insurances, market risk calculations, following up of treasury transactions and asset-liability risks are being monitored.

10. Main guidelines for liquidation process of uncollectible loans and other receivables:

Loans and other receivables, which were deemed uncollectible according to the “Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans” published in the Official Gazette No. 26333 dated 1 November 2006 and for which a full impairment provision has been made, are written-off per the decision of the Bank top management. In 2017, non-performing loans amounting to TL 25,489 have been written-off (31 December 2016 – TL 150,682).

11. Information on the write-off policy:

The Bank ‘s write-off policy is to write-off the loan receivables that have been already transferred to legal follow-up and fully provided for and for which there is no possibility of collection through legal process and for which there is no collateral. Such loans are written off as per the decision of top management.

(\*) According to temporary article 2 of “Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be Set Aside”, the Parent Bank recognizes provisions for non- liquidated non-cash loans and check books of customers who have any other non-performing exposures within the Bank.

(\*\*) Other item includes TL 4,050 litigation provision in current period (31 December 2016 :- TL 4,050). In addition to this, 14,450 TL include provision amount which belongs to audit related penalty from Ministry of Customs and Trade (31 December 2016 – TL 14,450 ). The provision amounting to TL 18,850 includes provision for delayed repayments (31 December 2016 - TL 18,850).

4. Information on provisions for employee benefits:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 59,886 (31 December 2016 – TL 55,464), vacation pay liability amounting to TL 15,755 (31 December 2016 – TL 793), performance premium amounting to TL 11,823 (31 December 2016 – TL 55,927), retirement bonus payment provision of TL 10,349 (31 December 2016 – TL 10,340) and committee fee amounting to TL 3,454 (31 December 2016 – TL 6,714).

Under the Turkish Labour Law, the Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or earns the right to retire.

The amount payable consists of one month’s salary limited to a maximum of TL 4,426 (31 December 2016 – TL 4,297 ) for each year of service. The liability is not funded, as there is no funding requirement.

The reserve has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise’s obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:
