(Convenience translation of the auditor's report originally issued in Turkish ~ See Note I of Section Three)

REVIEW REPORT ON CONSOLIDATED INTERIM FINANCIAL INFORMATION

To the Board of Directors of Kuveyt Türk Katılım Bankası A.Ş.

Introduction

We have reviewed the consolidated statement of financial position of Kuveyt Türk Katılım Bankası A.Ş. (the "Bank") and its subsidiaries (collectively referred as the "Group") at September 30, 2020 and the related consolidated income statement, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the nine-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of these consolidated of interim financial information in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency("BRSA") and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Financial Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" principles for those matters not regulated by BRSA Legislation; together referred as "BRSA Accounting and Financial Reporting Legislation". Our responsibility is to express a conclusion on these consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards of Turkey and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true view of the consolidated financial position of the Group at September 30, 2020, and the results of its operations and its consolidated cash flows for the nine-month-period then ended in all material aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section VIII, are not consistent, in all material respects, with the reviewed consolidated financial statements and disclosures.

Other Matter

As disclosed footnote 1.5 of section three; the consolidated financial statements dated 1 January 2019, 30 September 2019 and 31 December 2019 were restated by taking Neova Sigorta A.Ş. into the scope of consolidation and these restated financial statements are presented comparatively with the financial statements dated 30 September 2020.

The financial statements of Neova Sigorta A.Ş. as at 31 December 2019 were audited by another audit firm, which expressed an unqualified opinion in their reports issued on 28 February 2020. Also, the audit of consolidated financial statements of the Group before the restatement as at 31 December 2018 and the financial statements of Neova Sigorta A.Ş. as at 31 December 2018, which form the basis of the consolidated financial statements as at 1 January 2019 that are presented in comparison with the accompanying consolidated financial statements as at 30 September 2020, were audited by one an other audit firm, which expressed an unqualified opinions in their report of the Group dated 7 March 2019 and in their report of Neova Sigorta A.Ş. dated 27 February 2019.

Additional paragraph for convenience translation to English

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with "BRSA Accounting and Financial Reporting Legislation" and the accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION ONE

GENERAL INFORMATION

1. History of the Parent Bank including its incorporation date, initial legal status and amendments to legal status:

Kuveyt Türk Katılım Bankası A.Ş. (“The Bank”) was incorporated with the approval of the Central Bank of the Republic of Turkey (CBRT) on 28 February 1989 and commenced its operations on 31 31 1989, with the name of Kuveyt Türk Evkaf Finans Kurumu A.Ş. To comply with the Banking Act 5411, the title of the Bank has been changed to Kuveyt Türk Katılım Bankası A.Ş. with a change in the Articles of Association which was approved in the annual general meeting dated 26 April 2006. Main field of operation is, in addition to the Bank’s equity, to collect funds from domestic and foreign customers through “Current Accounts” and “Profit/ Loss Sharing Accounts” and allocate such funds to the economy, to perform all kinds of financing activities in accordance with the regulations, to encourage the investments of all individuals and legal entities operating in agricultural, industrial, trading and service industries, participating into the operations of these entities or individuals and to form joint business partnerships and to perform all these activities in a non-interest environment.

The Parent Bank and its consolidated financial subsidiaries are named together as “Group”.

2. Shareholding structure, shareholders jointly or individually having direct or indirect control over the management and supervision of the Parent Bank and the disclosures on any related changes in the current period, if any, and information about the Group that the Parent Bank belongs to:

As of 30 September 2020, 62.24% of the Parent Bank’s shares are owned by Kuwait Finance House located in Kuwait, 18.72% by Vakıflar Genel Müdürlüğü Mazbut Vakıfları, 9.00% by Wafra International Investment Company in Kuwait and 9.00% by Islamic Development Bank whereas the remaining 1.04% of the shares are owned by other real persons and legal entities.

3. Explanations regarding the chairman and the members of board of directors, audit committee members, general manager and assistant general managers and their shares in the Parent bank :

4. Information on qualified shareholders

Name / Commercial Name	Share amount (Nominal)	Shareholding percentage	Paid shares (Nominal)	Unpaid shares
Kuwait Finance House	2,863,098	62.24%	2,863,098	-
Vakıflar Genel Müdürlüğü Mazbut Vakıfları	861,086	18.72%	861,086	-
Total	3,724,184	80.96%	3,724,184	-

As of 30 September 2020, the shares of parent shareholder of Parent Bank, Kuwait Finance House (“KFH”) are 51.95% publicly traded; 24.08% of KFH belongs to Kuwait Investment Authority and 10.48% belongs to Public Authority for Minors Affairs.

5. Explanations of the Parent Bank’s services and field of operations

The Parent Bank’s field of operations includes corporate banking, international banking services, and retail banking and credit card services. The Parent Bank’s core business is operating in accordance with the principles of interest-free banking as a participation bank by collecting funds through current and profit/loss sharing accounts, and lending such funds to its customers. As of 30 September 2020, the Group is operating through 440 domestic branches (31 December 2019 – 436) with 6,522 employees (31 December 2019 – 6,091). Summary of some of the Parent Bank’s operations described in the Articles of Association are as follows:

- To collect funds through “Current Accounts” and “Profit/Loss Sharing Accounts” and special fund pools in line with the regulations;
- To allocate funds to the economy and provide all kinds of cash, non-cash loans within the principles of non-interest banking;
- To offer financial and operational leasing;
- To handle all kinds of deposits and payments, including travelers’ checks, credit cards and other payment instruments, provide member business services (POS), consulting, advisory, and safe deposit box services;
- To purchase financial instruments on money and capital markets in cash or installments, sell and mediate the sale and trade on the stock exchange in accordance with legislation and principles of non-interest banking;
- To purchase, acquire and construct any kind of real estate and if necessary lease or transfer ownership to other persons;
- To act as a representative, deputy or agent for corporations and enterprises (including insurance companies);
- To provide socially responsible aid for the benefit of the community in the light of the legislations.

The Parent Bank’s activities are not limited to the list above. If another transaction is decided to be beneficial to the Bank, the transaction must be recommended by the Board of Directors, approved by the General Assembly and authorized by relevant legal authorities after whom it also needs to be approved by the Ministry of Customs and Trade since it constitutes an amendment of the Article of Association. Decisions that have been approved through all these channels will be included to the Article of Association.

6. Current or likely actual legal barriers to immediate transfer of equity or repayment of debts between Parent Bank and its subsidiaries:

None.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

1. Explanations on Basis of Presentation

1.1. The preparation of the consolidated financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on Accounting Applications for Banks and Safeguarding of Documents:

The Parent Bank prepares its financial statements in accordance with the “Regulation On The Procedures And Principles For Accounting Practices And Retention Of Documents By Banks” published in the Official Gazette dated 1 November 2006 with numbered 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Agency (“BRSA”) as well as the circulars and pronouncements published by the BRSA. For matters not regulated by the aforementioned legislations, the Bank prepares its financial statements in accordance with the BRSA Accounting and Financial Reporting Legislation, which comprises the terms of the Turkish Financial Reporting Standards issued by the Public Oversight Accounting and Auditing Standards Authority.

Additional paragraph for convenience translation

The differences between the standards set out by BRSA Accounting and Financial Reporting Legislation and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

1.2. Accounting policies and valuation principles applied in the preparation of financial statements:

The financial statements have been prepared on the historical cost basis except for the financial instruments at fair value through profit or loss, and the financial assets and liabilities at fair value through other comprehensive income that are measured at fair values.

The preparation of consolidated financial statements in conformity with BRSA Accounting and Financial Reporting Legislation requires the Group management to make assumptions and estimates with respect to the assets and liabilities on the balance sheet and contingent issues outstanding as of the balance sheet date. These assumptions and estimates mainly consist of calculations of the fair values of financial instruments and the impairment on assets. The assumptions and estimates are reviewed regularly and, when necessary, appropriate corrections are made and the effects of such corrections are reflected on the income statement.

The ongoing COVID-19 pandemic, which has recently emerged in China, has spread to various countries in the world, causing potentially fatal respiratory infections, negatively effects both regional and global economic conditions, as well as it causes disruptions in operations, especially countries that are exposed to the epidemic. As a result of the spread of COVID-19 around the world, several measures are still being taken in Turkey as well as in the world in order to prevent the spread of the virus and measures are still being taken. In addition to the measures, economic measures are also taken to minimize the economic impact of the virus outbreak on individuals and businesses in Turkey and worldwide.

Since it is aimed to update the most recent financial information in the interim financial statements prepared as of September 30, 2020, considering the magnitude of the economic changes due to COVID-19, the Bank made certain estimates in the calculation of expected credit losses and disclosed them in third section footnote numbered 1.6 “Explanations on Expected Credit Loss”. In the upcoming periods, the Bank will update its relevant assumptions are necessary and revise the realizations of past estimates.

1.3. Changes in accounting estimates, errors and classifications

If changes in accounting estimates are related to only one period, they are applied in the current period in which the change is made, and if they are related to future periods, they are applied both prospectively and in the future periods. There were no significant changes in the accounting estimates of the Group in the current year. Significant accounting errors are applied retrospectively and prior period financial statements are restated.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

1.4. Preparation of the financial statements as regards to the current purchasing power of money:

Until 31 December 2004, the consolidated financial statements of the Group were subject to inflation adjustments in accordance with Turkish Accounting Standard No: 29 "Financial Reporting in Hyperinflationary Economies" ("TAS 29"). As per the BRSA decision numbered 1623 and dated 21 April 2005 and the BRSA circular dated 28 April 2005 it was stated that the indicators for the application of inflation accounting were no longer applicable. Consequently as of 1 January 2005, the inflation accounting has not been applied.

1.5. TFRS 3 Explanations on Business Combinations Standard:

The acquisition of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Business combinations are accounted in accordance with TFRS 3 "Business Combinations" except for the assets (or disposal groups) that are classified as held for sale in accordance with TFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with that Standard.

The interests of non-controlling shareholders in the acquire is initially measured at the non-controlling's proportion of the fair value of the assets, liabilities and contingent liabilities recognized.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

Explanations regarding the accounting policy applied for the acquisition of Neova Sigorta A.Ş.

Following the necessary legal permissions on May 5, 2020, the Bank finalized the purchase of Neova Sigorta A.Ş. by completing the share transfer process. The Bank purchased 78,864,212 shares by paying TL 745,860 and increased the partnership share in Neova Sigorta A.Ş. from 7% to 100% by owning all the shares.

As per the principle related to "Accounting for business combinations under common control" the Public Oversight Accounting and Auditing Standards Authority issued in the Official Gazette No. 30568 dated 17 October 2018, business combinations under common control shall be accounted through restating previous period's financial statements via the pooling of interest method. In line with the aforementioned Authority decisions, The Group management restated its consolidated balance sheet and off-balance sheet as at 31 December 2019 and 1 January 2019 and also the consolidated statements of profit or loss and other comprehensive income, consolidated statement of changes in shareholder's equity and cash flows for the period ended at 30 September 2019 due to the purchase of Neova Sigorta A.S.

The effects of the regulations and classifications described above are presented in detail below.

NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

1.6. Disclosures Regarding TFRS 9 Financial Instruments:

TFRS 9 “Financial Instruments”, which is effective as at 1 January 2018 is published by the Public Oversight Accounting and Auditing Standards Authority (“POA”) in the Official Gazette numbered 29953 dated 19 January 2017. As of 1 January 2018, the application of TFRS 9 replaced “TAS 39: Financial Instruments: Recognition and Measurement.” standard.

TFRS 9 also includes new principles for general hedge accounting which aims to harmonize hedge accounting with risk management applications. In the admission of the accounting policies, TFRS 9 presents the option of postponing the adoption of TFRS 9 hedge accounting and continuing to apply the hedge accounting provisions of TAS 39.

All recognized financial assets that are within the scope of TFRS 9 are required to be initially measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and profit share on the principal amount outstanding, are generally measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under TFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment in other comprehensive income, with only dividend income generally recognized in profit or loss.

Dividends obtained from such investments are accounted in the financial statements as profit or loss unless they are evidently a part of the recoverable cost of investment.

As a result of the combination of contractual cash flow characteristics and business models, the differences in the classification of financial assets are reflected in the financial statements compared to the current classification in TAS 39.

During the first recognition of a financial asset into the financial statements, business model determined by the Parent Bank management and the nature of contractual cash flows of the financial asset are taken into consideration.

Classification And Measurement of Financial Instruments:

According to TFRS 9 requirements, classification and measurement of financial assets will depend on the business model within which financial assets are managed and their contractual cash flow characteristics whether the cash flows represent “solely payments of principal and profit share” (SPPI).

Upon initial recognition each financial asset shall be classified as either fair value through profit or loss (“FVTPL”) amortized cost or fair value through other comprehensive income (“FVOCI”). As for the classification and measurement of financial liabilities, the application of the existing terms of TAS 39 remain largely unchanged under TFRS 9.

Explanations on Expected Credit Loss :

As of 1 January 2018, the Parent Bank will recognize provisions for impairment in accordance with the TFRS 9 requirements according to the “Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside” published in the Official Gazette dated 22 June 2016 numbered 29750. The expected credit loss estimates are required to be unbiased, probability-weighted and should include supportable information about past events, current conditions, and forecasts of future economic conditions.

Modeling studies were carried out on the principal components of the Expected Loan Loss calculation and the default probability (CTR) models were developed on various loan portfolios. Credit portfolios are determined according to customer segments that form the basis of banking activities. The cyclical default probabilities generated by these models developed for use in the Internal Rating Based Approach (IDD) are translated into the Instantaneous Default Probabilities and these instantaneous default probabilities are used when calculating the Expected Loan Loss on TFRS 9 Calculation on Default (CPI) calculation reflects the legal deduction rates and the Bank's past collection performance on unsecured loans. Default Amount (TT) corresponds to the balance used in cash at the reporting date for cash loans, non-cash loans and balance after application of the loan to commitment risks.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Macroeconomic scenarios affect TO and THK values. The amount of credit losses expected with 3 different scenarios, Base and Good and Bad scenario, is calculated. The probability of default of the debtors and the loss rates in default vary with each scenario.

The Group has calculated the possible effects of the COVID-19 outbreak as of 30 September 2020 with the best estimate method, which it obtained on the principle of maximum effort to estimate and reasoning used in the calculation of expected credit losses. In the light of the aforementioned data, the Bank revised its macroeconomic expectations in the calculation of expected credit loss, and the calculation made taking into account the change in PD with the update in the EDF model was reflected in the financial statements as of 30 September 2020. By its nature, the model effects are reflected in the financial statements with a delay due to the occurrence of the events and their effects at different times. For this reason, if deemed necessary the Bank may make sectoral based valuations in order to eliminate the timing difference and establish additional provisions for the sector or customers which are considered to have a high impact due to outbreak.

Within the scope of Article 4 and 5 of the Regulation On Procedures And Principles For Classification Of Loans And Provisions in accordance with the BRSA Decision numbered 8948 dated 17 March 2020, due to the disruptions in economic and commercial activities resulting from the Covid-19 outbreak, the 90 days default periods for loans to be classified as non-performing loans shall be applied as 180 days; the 30 days periods for loans to be classified as stage 2 shall be applied as 90 days according to assembly's resolution dated on 17 March 2020. This measure will be effective until 31 December 2020. In this context,

- Temporarily, it is possible to classify the receivables that cannot be collected up to 90 days in stage 1, and the receivables that cannot be collected up to 180 days in Stage 2
- In restructured installment receivables, the practice of shifting installments without a contract breakdown, within the defined terms has started for costumers who do not want to be late in their instalments.

Terminatively, this leads the Banks continue to set aside provisions for such receivables in accordance with their own risk models used in the calculation of expected credit losses under TFRS 9.

The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecast of future economic conditions.

The Parent Bank applies a 'three-stage' impairment model depending on the gradual increase in credit risk observed since initial recognition

Stage 1: Includes financial assets not having significant increase in their credit risk from initial recognition till the following reporting date or financial assets having low credit risk at the reporting date. It is recognized 12-month expected credit losses for such financial assets.

Stage 2: Includes financial assets having significant increase in their credit risk subsequent to the initial recognition, but not having objective evidence about impairment. It is recognized life time expected credit losses for such financial assets.

In this context; The basic considerations that are taken into account in determining the significant increase in the credit risk of a financial asset and its transfer to Phase 2 are, but are not limited to, the following.

- Delayed by more than 30 days as of the reporting date
- Restructuring
- Close Monitoring
- Evaluation of distortion in Rating Note

The rating of the rating is calculated by using the Bank's rating ratings based on the internal rating of the parent Bank by using the rating of the credit rating. For the loan, the rating rating calculated on the reporting date exceeds the determined threshold values and is considered as a distortion in the rating.

In this context; in accordance with the decision of the BRSA in the context of the covid-19 outbreak, the 30-day delay period for the classification of loans as Stage 2 has been implemented as 90 days until 31 December 2020; The Bank continues to provide provisions in accordance with this loan credit risk policy.

Stage 3: Includes financial assets having objective evidence about impairment at the reporting date. It is recognized life time expected credit losses for such financial assets.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

The Group periodically evaluates the provisions of loans and other receivables in accordance with TFRS 9 retrospectively on the basis of their results and, if deemed necessary, revises the basketing rules and the parameters used in the calculation of the related provision balances.

In this context; in accordance with the decision of the BRSA in the context of the covid-19 outbreak, the 90-day delay period for the classification of loans as Stage 3 has been implemented as 180 days until 31 December 2020; The Bank continues to provide provisions in accordance with this loan credit risk policy.

1.7 Revenue from TFRS 15 Customer Contracts:

TFRS 15 Revenue from Customer Contracts provides a single, comprehensive model and guidance on the recognition of revenue and is recorded in accordance with TFRS 15.

1.8 Explanations on TFRS 16 Leases Standard

The leasing transactions are presented by the lessors as assets (right-of-use assets) and liabilities from leasing transactions. TFRS 16 Standard eliminates the dual accounting model of leasing transactions on balance sheet and operational leasing transactions as direct expense except balance sheet.

Within the scope of TFRS 16, the Group reflects the existence of a lease obligation and a right of use to the financial statements at the date of initial application. The Bank measures the leasing liability on the present value of the remaining lease payments, discounted at their present value using the alternative borrowing cost ratio at the date of initial application of the Bank. In addition, the Group measures the existence of the right to use of such right at an amount equal to the lease obligation, which is reflected in the statement of financial position immediately after the first application date, adjusted for the amount of all prepaid or accrued lease payments.

As of September 30, 2020, the right-of-use assets classified tangible assets amounting to TL 516,713 in the balance sheet of the Group and lease obligations amounting to TL 376,542. In the nine-month period that ended as of the same date, financial expenses amounting to TL 47,487 and depreciation expenses amounting to TL 86,187 were incurred.

On 5 June 2020, Public Oversight Accounting and Auditing Standards Authority ("POA") has changed to TFRS 16 "Leases" standard by publishing Privileges Granted in Lease Payments - "Amendments to TFRS 16 Leases" concerning Covid-19. With this change, tenants are exempted from whether there has been a change in the rental privileges in lease payments due to Covid-19. This change did not have a significant impact on the financial status or performance of the Bank.

2. Explanations on Strategy of Using Financial Instruments And Foreign Currency Transactions

The Group follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Parent Bank's exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Parent Bank's equity. The assets-liabilities committee (ALC) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates published by the Central Bank of Turkey converting them into Turkish Lira and valuation differences of foreign currencies have been recognized in the income statement under the net foreign exchange income/expense account.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement. There are no foreign currency differences capitalized by the Parent Bank.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

3. Investments in Associates And Subsidiaries

Consolidated and Financial Statements " Turkey Accounting Standard for Consolidated Financial Statements" (TFRS 10) has been prepared in accordance with the provisions.

Titles, locations of the headquarters, main operations and Group's shares relating the consolidated entities are as follows:

Title	Address (City/Country)	Main Operation	30-Sep-20	31-Dec-19	Consolidation method
KT Bank AG	Frankfurt/Germany	Banking	100.00%	100.00%	Full consolidation
KT Kira Sertifikaları Varlık Kiralama A.Ş.	İstanbul/Turkey	Financial Instution	100.00%	100.00%	Full consolidation
KT Sukuk Varlık Kiralama A.Ş.	İstanbul/Turkey	Financial Instution	100.00%	100.00%	Full consolidation
KT Portföy Yönetimi A.Ş.	İstanbul/Turkey	Financial Instution	100.00%	100.00%	Full consolidation
Körfez Gayrimenkul Yatırım Ortaklığı A.Ş.	İstanbul/Turkey	Financial Instution	75.00%	75.00%	Full consolidation
Katılım Emeklilik ve Hayat A.Ş.	İstanbul/Turkey	Financial Instution	50.00%	50.00%	Accounted with equity pick-up
Neova Sigorta A.Ş.	İstanbul/Turkey	Financial Instution	100.00%	7.00%	Full consolidation

KT Sukuk Company Limited, established on July 31, 2015 in the Cayman Islands for the issuance of the bank's Tier-II subordinated loan, was excluded.

Parent Bank and the subsidiaries, the financial tables of which are consolidated along with the Parent Bank, are collectively referred as "the Group."

Consolidation basis of subsidiaries:

Subsidiaries are entities whose capital and management are directly or indirectly controlled by the Parent Bank. Subsidiaries are consolidated by the full consolidation method, within the framework of significance on the basis of operational outcomes, assets sizes and equity sizes. The financial statements of the relevant subsidiaries are included in the consolidated financial statements as of the date that control is transferred to Parent Bank.

Control denotes any of the following circumstances: the Parent Bank directly or indirectly through subsidiaries has over 50% of the voting rights or, dominance over the voting rights as described afore does not exist but the Parent Bank owns the preferred shares, or; the Parent Bank has voting rights appropriating more than %50 percent of all voting rights due to the agreements signed with other shareholders, or; the Parent Bank has the authority to manage the operational and financial policies of the entity due to certain arrangements or agreements, or; the Parent Bank has the power to influence the majority of the votes within the Board of Directors or any other executive organ vested with similar rights, or; the Parent Bank by any means has the power to appoint or dismiss the majority of the Board of Directors.

In accordance with the full consolidation, all of the assets, liabilities, income, expense and off-balance sheet liabilities of the subsidiaries are consolidated with the assets, liabilities, income, expense and off-balance sheet liabilities of the Parent Bank. The carrying value of the Group's investment in each subsidiary is offset with the cost value of the subsidiary's capital owned by the Group. Balances regarding the transactions between the subsidiaries in the scope of the consolidation and the unrealized gains/losses are reciprocally offset. Minority shares within the net income of the consolidated subsidiaries are determined provided that the net income of the Group shall be calculated, and these minority shares are presented as a separate item in the income statement. Minority shares are presented under the equity in the consolidated balance sheet.

In the case where the accounting policies implemented by the subsidiary are different than the Parent Bank, the accounting policies are reconciled.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

4. Explanations on Forward Transactions And Option Contracts And Derivative Instruments

The Group enters into forward agreements to decrease its currency risk and to manage its foreign currency liquidity. Derivative instruments are classified as ‘hedging derivative financial asset’ and ‘derivative financial assets/liabilities at fair value profit or loss’. The Group classifies its derivative instruments as “Derivative Financial Instruments Held for Hedging Purposes” and “Derivative Financial Instruments Held for Trading” in accordance with TAS 39. Even though some derivative transactions economically hedge risk, since all necessary conditions for hedge accounting are not met, they are accounted for as “held for trading” within the framework of TAS 39, and are reflected in the “Derivative Financial Assets/liabilities at fair value profit or loss” account in the balance sheet. The Group has no derivative financial assets/liabilities for hedging purposes as of balance sheet date.

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their notional amounts.

Fair values of foreign currency forward transactions and swaps are calculated by using the discounted cash flow model. Differences resulting from the changes in the fair values of derivatives held for trading are accounted under ‘Trading Income/Loss’ line in the income statement.

Embedded derivatives are separated from the host contract if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative and the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss. Embedded derivatives are accounted as derivative instruments in-line with TAS 39. If the embedded derivatives are closely related with the host contract, embedded derivatives are accounted for in-line with the relevant standard applicable for the host contract.

TFRS 9 permits to defer application of TFRS 9 hedge accounting and continue to apply hedge accounting in accordance with TAS 39 as a policy choice. Accordingly, the Bank has continued to apply hedge accounting in accordance with TAS 39 in this context. The Group’s cash flow hedging process has ended as of 30 September 2020.

5. Explanations on Profit Share Income And Expense

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. While applying the internal rate of return method, the Group amortizes the fees included in the account of the effective profit rate over the expected life of the financial instrument. If the financial asset is impaired and classified as a non-performing loan, profit accruals and rediscount calculations for these customers within the scope of TFRS 9 Financial Instruments Standard.

The Group calculates expense accrual in accordance with the unit value calculation method on profit/loss sharing accounts and reflects these amounts in “Funds Collected” account on the balance sheet.

6. Explanations on Fees And Commission Income And Expenses

Other than fees and commission income and expenses received from certain banking transactions that are recorded as income or expense in the period they are collected, fees and commission income and expenses are recognized in the income statement depending on the duration of the transaction. Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers.

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers. Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting throughout the service period. The income derived from agreements or asset purchases from real-person or corporate third parties are recognized as income when realized.

In accordance with the provisions of TAS, commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the “Unearned Revenues” account under “Other Liabilities” on the balance sheet.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

7. Explanations on Financial Assets

The Group classifies and accounts for its financial assets as ‘Fair Value Through Profit/Loss’, ‘Fair Value Through Other Comprehensive Income,’ or ‘Amortized Cost.’ Such financial assets, are recognized and derecognized as per the terms of “Recognition and Derecognition in Financial Statements” under the section three of the “IFRS 9 Financial Instruments” regarding the classification and measurements of financial instruments, published in the Official Gazette numbered 29953 and dated 19 January 2017 by Public Oversight, Accounting and Auditing Standards Authority (“POA”). When financial assets are included in the financial statements for the first time, they are measured at fair value. Transaction costs are initially added to fair value or deducted from fair value at the initial measurement of financial assets other than the "Fair Value at Fair Value Through Profit or Loss".

The Group recognizes a financial asset in the financial statements only when it becomes a party to the contractual terms of a financial instrument. During the initial recognition of a financial asset, the business model determined by parent Bank management and the nature of contractual cash flows of the financial asset are taken into consideration. When the business model determined by the Group management is changed, all affected financial assets are reclassified and this reclassification is applied prospectively. In such cases, no adjustments is made to gains, losses or profit shares that were previously recorded in the financial statements.

7.1 Financial assets at fair value through profit or loss:

Financial assets at fair value through profit or loss are financial assets that are managed within a business model other than the business model whose objective is achieved by holding contractual cashflows for collection and the business model whose objective is achieved by collecting and selling contractual cash flows. Also, in case that the contractual terms of financial assets do not give rise on specified dates to cash flows that are solely payments of principal and profit share on the principal amount, such assets are those that are, obtained with the aim of providing profit from the short-term price or other factor fluctuations in the market or are part of a portfolio aiming to obtain short-term profit, regardless of the reason of acquisition.

7.2 Financial assets at fair value through other comprehensive income:

A financial asset is classified as at fair value through other comprehensive income when the asset is managed within a business model whose objective is achieved by collecting contractual cash flows and selling the financial asset, as well as when the contractual terms of the financial asset give rise on specified dates to cash flows are solely payments of principal and profit share on the principal amount.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition costs that reflect the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Profit share income calculated with effective profit share method regarding the financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. “Unrealized gains and losses,” which is the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income, are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, or the impairment of the asset. “Unrealized gains and losses” are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity.

Equity securities, which are classified as financial assets at fair value through other comprehensive income, are carried at fair value, in the case that the securities have a quoted market price in an active market and/or the fair values of the securities can be reliably measured. In contrary case, the securities are carried at cost, less provision for impairment.

During initial recognition an entity can make an irrevocable election regarding the presentation of the subsequent changes in the fair value of the investment in an equity instrument, that is not held for trading purposes, in the other comprehensive income. In the case that the entity elects to present the changes as described, dividends arising from the investment is accounted in the financial statements as profit or loss.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

7.3 Financial assets measured at amortized cost:

In the case that a financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and that the contractual terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and profit share on the principal amount, the financial asset is classified as financial asset measured at amortized cost.

Financial Assets Measured at Amortized Cost; are financial assets, other than loans and receivables, which are held for the purpose of custody until maturity, with conditions necessary for such assets to be held until contractual maturity met, including funding ability; and which have fixed or determinable payments and fixed maturities. Financial assets measured at amortized cost are initially recognized at cost and subsequently measured at amortized cost using the internal rate of return method. Profit share income related to Financial Assets measured at amortized cost is reflected in the income statement.

7.4 Derivative financial assets:

The major derivative instruments utilized by the Group are foreign currency swaps, cross currency swaps and currency forwards.

Payables and receivables arising from the derivative instruments are recorded in the off-balance sheet accounts at their contractual values.

Derivative transactions are valued at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, the fair value amounts are classified as "Derivative Financial Assets Designated at Fair Value Through Profit or Loss." The fair value differences of derivative financial instruments are recognized in the income statement under trading profit/loss line in profit/loss from derivative financial transactions. The fair value of derivative instruments is calculated by taking into account the market value of the derivatives or by using the discounted cash flow model.

7.5 Loans:

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Profit Share Rate (internal rate of return) Method".

8. Explanations on Offsetting of Financial Assets And Liabilities

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Parent Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

9. Explanations on Sale And Repurchase Agreements And Lending of Securities

Central Bank of the Republic of Turkey ("CBRT") made some changes on orders for open market transactions ("OMT") and prepared an additional frame contract for participation banks in order to present rent certificates to open market operations of CBRT in accordance with the principles of participation banks. According to this agreement; a new type of transaction was formed which enables participation banks to resell or repurchase rent certificates on their portfolio to CBRT when they are in need of funding or in attempt to evaluate the excess liquidity. In this content, the Bank performs sale transactions of treasury rent certificates that are recognized in the assets of the balance sheet in return for conditional repurchasing by tendering to purchase auctions held by CBRT with various maturities; and thusly raises funds.

As of 30 September 2020, the Group has repurchase agreement amounting to TL 8,224,602 (31 December 2019: None).

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

10. Explanations on Assets Held For Sale And Discontinued Operations And Related Liabilities

As mandated by the Banking Act 5411 Article 57 “banks cannot participate in commercial real-estate and commodity trade with the exception of real-estate and commodity based agreements within the scope of Capital Markets Act No. 2499, and precious metal trade as seen appropriate by the board, and cannot participate in partnerships with firms whose main business activity is commercial real-estate, with the exception of real-estate investment partnerships and companies that finance mortgaged residential estates. The rules and procedures regarding the sales of real-estate and commodities that were acquired due to receivables and debtors’ obligations to the bank are determined by the board.”

Assets that meet the criteria for classification as assets held for sale are measured at the lower of the carrying amount of assets and fair value less any costs to be incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, the sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset (or the disposal group) together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset (or the disposal group) should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal over one year. If such delay arises from any events and conditions beyond the control of the entity and there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or disposal group) can remain to be classified as assets (or disposal group) held for sale. Extension of the period necessary to complete the sale, does not avoid the classification of the related asset (or disposal group) to be classified as asset held for sale.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale. Discontinued operations are presented separately in the income statement. The Group has no discontinued operations.

11. Explanations on Goodwill And Other Intangible Assets

Intangible assets are stated at cost adjusted for inflation until 31 December 2004, less provision for impairment, if any, and accumulated amortization and amortized with straight-line method.

The other intangible assets of the Group comprise mainly computer software. The useful lives of such assets acquired prior to 2004 have been determined as 5 years and for the year 2004 and forthcoming years, as 3 years.

The amortization period of the licenses is determined on the basis of the duration of the license agreements.

There is no goodwill related to associates and subsidiaries.

12. Explanations on Tangible Assets

Fixed assets are stated at cost adjusted for inflation until 31 December 2004, less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets. The annual rates used for amortization are as follows:

Property	2%
Movables, leased assets	6.67% - 20%

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date. Leasehold improvements are depreciated over the term of the lease agreements by straight-line method.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than its carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Expenses for repair costs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed as incurred.

The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product, or to decrease the costs.

Property held for long-term rental yields and/or capital appreciation is classified as investment property. Investment properties are stated at cost less accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

13. Explanations on Leasing Transactions

For contracts concluded prior to 1 January 2019, the Group assesses whether the contract has a lease qualification or include a lease transaction.

- (a) The right to obtain almost all of the economic benefits from the use of the leased asset and,
- (b) Whether the leased asset which has the right to manage its use is evaluated

The Bank has started implementing the TFRS 16 - Leases standard from 1 January 2019, the first date of the TFRS 16 standard. At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. Lease payments are discounted by using the Bank's alternative borrowing profit rate.

The Bank has recognized the right to lease assets equal to the lease obligation by restating the previously paid or accrued lease payments.

The right of the use asset

The Group reflects the existence of a right of use and a lease obligation to the financial statements at the date the lease is commenced.

The right to use asset is recognized first by cost method and includes the following:

- (a) The first measurement amount of the lease obligation,
- (b) The amount obtained by deducting all rental incentives received from all lease payments made at or before the date of the rental.

When the Group applying cost method, the existence of the right of use:

- (a) Accumulated depreciation and accumulated impairment losses are deducted and
- (b) Measures the restatement of the lease obligation over the adjusted cost.

The Group applies the depreciation liabilities in TAS 16 Tangible Fixed Assets while depreciating the right of use asset.

The Group determines whether the right of use has been impaired and recognizes any identified impairment losses in accordance with TAS 36 – Impairment of Assets.

Lease Obligation

At the effective date of the lease, the Group measures the leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Group's alternative borrowing interest rate.

The profit on the lease liability for each period of the lease term is the amount found by applying a fixed periodic profit rate to the remaining balance of the lease liability. Periodic profit rate is the Group's borrowing profit rate.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

After the beginning of a contract, the Group remeasures its lease liability to reflect changes in lease payments. The Group reflects the restatement amount of the lease obligation to the financial statements as revised in the presence of the right of use.

The Group measures the lease obligation by discounting the revised lease payments on a revised discount rate when any of the following conditions occur:

- A change in the rental period.
- The Group determines revised rent payments based on revised lease term.
- The Group determines the revised discount rate for the remaining portion of the lease term as the alternative borrowing interest rate at the date of Bank's revaluation.

14. Insurance Technical Income and Expense

In insurance companies, premium income is obtained after diminishing the shares transferred from arranged policy income to reinsurer.

Claims are recorded in expense on accrual basis. Outstanding loss provisions are recognized for the claims reported but not paid yet and for the claims that incurred but not reported. Reassurer' shares of outstanding and paid claims are offset in the provisions.

15. Explanations on insurance technical provisions

TFRS 4 requires that all contracts issued by insurance companies be classified as either insurance contracts or investment contracts. Contracts with significant insurance risk are considered insurance contracts. Insurance risk is defined as risk, other than financial risk, transferred from the holder of a contract to the issuer. Contracts issued by insurance companies without significant insurance risk are considered investment contracts. Investment contracts are accounted for in accordance with TAS 39 "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement".

Within the framework of the current insurance regulation, insurance technical provisions accounted by insurance companies for unearned Premium claims, unexpired risk reserver, outstanding claims and life-mathematical reserves are presented in the consolidated financial statements.

Unearned premium reserve is recognized on accrued premiums without discount or commission which extends to the next period or periods on a daily basis for the current insurance contracts.

In case the expected loss premium ratio is over 95%, the unexpired risk reserves are recognized for the main branches specified by the Undersecretariat of Treasury. For each main branch, the amount found by multiplying the ratio exceeding 95% by the net unearned premium provision, is added to the unearned premium provision of that main branch.

If the outstanding claim reserve is established and confirmed by approximation and if there are unpaid or unidentified compensation amounts in both prior and current Accounting periods; it is separated for estimated yet unreported compensation amounts.

Mathematical reserve is recognized on actuarial bases in order to meet the requirements of policyholders and beneficiaries for life, health and personal accident insurance contracts for a period longer than a year.

On the other hand, actuarial chain ladder method is used to estimate the reserve amount to be set aside in the current period by looking at the data of the past materialized losses. If the reserve amount found as a result of this method exceeds the amount of reserve for the amount of uncertain indemnity, additional reserve must be set aside for the difference.

Reinsurance companies recognize for the outstanding claims that is declared by the companies, accrued and determined on account.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Insurance companies of the Group cede premium and risks in the normal course of business in order to limit the potential for losses arising from risks accepted Insurance premiums ceded to reinsurers on contract that are deemed to transfer significant insurance risk are recognized as an expense in a manner that is consistent with the recognition of insurance premium revenue arising from the underlying risks being protected.

Cost which vary and are directly associated with the acquisition of insurance and reinsurance contracts including brokerage, commissions, underwriting expenses and other acquisition costs are deferred and amortized over the period of contract, consistent with the earning of premium.

16. Explanations on Provisions And Contingent Liabilities

Provisions and contingent liabilities are accounted for in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (TAS 37).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate can be made of the amount of the obligation.

As per the “Matching Principle,” a provision is provided for the liabilities arising as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a “Contingent” liability and is disclosed in the related notes to the financial statements.

17. Explanations on Liabilities Relating to Employee Benefits

17.1 Defined benefit plans:

In accordance with existing social legislation, the group is required to make severance pay to each employee who has completed over one year of service with the group and who retires or quits the employment to receive old age or disability benefits, to fulfill the compulsory military service, because of the marriage (for females) or because of the other compulsive reasons as defined in the laws and whose employment is terminated due to reasons other than resignation or misconduct.

Liabilities amount which is related to “Turkish Accounting Standard on Employee Benefits” (“TAS 19”) is reflected accompanying financial statements and these liabilities are calculated by an independent actuary firm. Group is accounted all actuarial profit and loss under Statement of other Comprehensive Income.

The Group’s employees are not members of any pension fund, foundations, union or other similar entities.

17.2 Defined contribution plans:

The group pays defined contribution plans to publicly administered Social Security Funds for its employees as mandated by the Social Security Association. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

17.3 Short term benefits to employees:

In accordance with “TAS 19”, vacation pay liabilities are defined as “Short Term Benefits to Employees” and accrued as earned.

Group management calculates bonus accrual if it foresees that the budgeted year-end figures approved by the Board of Directors are attainable.

18. Explanations on Taxation

Current Tax

As per the terms of the provisional article 10 added to the Law No. 5520 by the Article 91 of the Law No. 7061, it was established that the rate of 20%, as disclosed in the first paragraph of the Article 32 of the Corporate Tax Law No. 5520, shall be applied as 22% over the corporation income for the tax periods of the years 2018, 2019, 2020 (and for entities that are appointed with special accounting period, for the accounting periods beginning within the relevant year). Council of Ministers is entitled to lower the rate of 22% as disclosed in the first paragraph to a limit of 20%.

Under this scope, corporate tax with the rate of 22% shall be calculated over the corporate income of the corporate taxpayers for the accounting periods of 2018, 2019 and 2020. In addition, as per provisions of the Income Tax Law, advance tax with the rate of 22% shall be paid by the taxpayers in the aforementioned periods in order to be offset from the corporate tax for the aforementioned tax periods.

The corporate tax rate will be applied as 22% for the years 2018, 2019 and 2020. This rate is applied on taxable income which is calculated by adjusting the income before tax for certain disallowable expenses, tax exempt income and other allowances. No further tax is applicable unless the profit is distributed. According to the tax legislations, advance tax amount shall also be calculated using a rate of 20% for each quarter over tax base and shall be paid, then the advance taxes paid within the year shall be offset from the corporate tax calculated over the yearly corporate tax return for that year.

Withholding taxes is not applied to dividends distributed to companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey. With the Council of Minister's decision numbered 2009/14593 and 2009/14594 which are published in official gazette numbered 27130 and dated 3 February 2009, some deduction rates in 15th and 30th articles of the corporate tax law numbered 5520 were re-determined. In accordance with this, dividends distributed to companies other than companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey are subject to 15% withholding taxes. Double tax treaty agreements are also taken into consideration during the application of withholding taxes on dividends distributed to real persons and to foreign-based taxpayers. Addition of profit to share capital is not considered as dividend distributed therefore no withholding taxes is applied.

With the aforementioned amendment to the law, entities calculate advance tax using a rate of 22% over the quarterly financial income, for the years 2018-2019-2020 and advance tax returns are filed by the fourteenth day of the second month following the related period and taxes are paid by the seventeenth day. Advance taxes are paid within the year belong to that year, and the paid advance taxes are offset from the corporate tax liability calculated over the corporate tax returns in the subsequent year. Any remaining amount of paid advance taxes after the offset can be paid back in cash or it can be deducted from financial loans to the government.

For the purpose of issuance of certificate of leasing immovables to resource institutions, with the sale of asset leasing companies, the scope of Financial Leasing, Factoring and Financing Companies Law No.6361, dated 21 November 2012 in order to lease it back and in case of taking back at the end of the contract, with the sale of financial leasing companies and asset leasing by asset leasing companies, for profit from the sale of the immovable property inherited from the institution applies this rate as 100% and for the immovable is not compulsory to be in assets at least for a period of two years. But the mentioned immovable's; except in case of failure to fulfill the obligations arising from the source institution, the lesser or leasing agreement, immovable in question by the asset leasing company, in case of selling a third person or institutions, these immovable's with the carrying value before its transfer to resource institution or asset leasing in lesser or asset leasing company, in mentioned institutions taking into consideration the total amount of depreciation is taxable for corporation engaged in the sale.

Corporate tax returns are filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes is paid in one installment by the end of that month.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. However, losses cannot be carried back to offset profits from previous periods. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Deferred Tax

For taxable temporary differences arising between the tax bases of assets and liabilities and their carrying amounts, as per the provisions of “Turkish Accounting Standard on Income Taxes” (“TAS 12”), the Group calculates deferred tax liability over all taxable temporary differences and deferred tax asset or liabilities over taxable temporary differences, apart from the provisions for Expected Credit Losses for 12-Months (Stage 1) and for Lifetime Credit Losses (Stage 2) with significant increase in the credit risk after initial recognition, to the extent that is probable that taxable profit will be available in subsequent periods. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis. The tax effect regarding the items directly accounted in equity are also reflected in equity. The rate is used in the calculation of deferred tax assets and liabilities was 22% over temporary timing differences expected to be reversed in 2018, 2019 and 2020, and 20% over temporary timing differences expected to be reversed in 2021 and the following years.

19. Explanations on Additional Disclosures on Borrowings

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Parent Bank does not apply hedging techniques on related borrowings.

The Group has not issued convertible bonds.

20. Explanations on Share Certificates Issued

There is no significant amount of transaction costs on Bank about share certificates.

21. Explanations on Acceptances And Aailed Drafts

Acceptances and aailed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

22. Explanations on Government Grants

There are no government grants received by the Group.

23. Explanations on Segment Reporting

The Group operates in three main segments; Retail Banking, Corporate and Commercial Banking, Treasury and International Banking. Each segment operates with unique products, and the operational results are followed based on these segments.

Segment reporting is disclosed in Section Four, Note 12.

24. Explanations on Other Matters

The Group has no disclosures on other matters.

SECTION FOUR

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE GROUP

1. Explanations on Consolidated Equity Items

Total capital and Capital adequacy ratio have been calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks”. As of 30 September 2020 Group’s total capital has been calculated as TL 12,314,004 (31 December 2019: TL 10,668,414), capital adequacy ratio is 21.58% (31 December 2019: 18.96%).

Based on the press release made by the BRSA on 23 March 2020; due to the fluctuations in the financial markets as a result of the COVID-19 outbreak; in the calculation of the amount subject to credit risk in accordance with the Regulation on Measurement and Evaluation of Capital Adequacy; with monetary assets and non-monetary assets excluding assets that are measured in terms of historical cost in a foreign currency valued amount of items in accordance with TAS and its special provisions amounts, spot purchase exchange rate can be used in preparation of financial statements as of 31 December, 2019, may be considered in the calculation of Turkish Lira equivalent of credit risk exposures in foreign currencies, and negative revaluation differences of the securities classified under “Financial Assets Measured at Fair Value through Other Comprehensive Income” which acquired before 23 March, 2020 may not be included in capital calculation. As of 30 September 2020, the Bank has used these opportunities in capital adequacy calculations.

1.2 Approaches applied to assess the adequacy of internal capital requirement in terms of current and future activities:

Internal evaluation process is established for continuously evaluating and maintaining the types, components and distribution of the adequate level of capital in order to provide for various risks exposed to or to be exposed to. The final purpose of the evaluation process of the internal capital requirement, is to define and evaluate all the risks included or not in the calculations of the legal capital requirements, within the frame of the activities of the bank, and to provide the availability of adequate capital in order to cover these risks and the application of the risk management techniques. The results obtained in this evaluation process by taking into consideration, the Parent Banks' growth strategy, assets-liabilities structure, funding sources, liquidity position, foreign currency position, the effect of the price and market fluctuations on the capital, which are among the variables of the economy, aim to provide the continuity of the mentioned capital adequacy level at the determined level in compliance with the Banks' risk profile and risk appetite.

Within this scope, capital structure is reviewed as based on the frame of the activities and risks exposed to, and the internal capital requirement, probable to occur within the direction of targets and strategies of the Group is evaluated. This evaluation includes interest rate risk, concentration risk, liquidation risk, reputation risk, residual risk, country risk and strategic risk arising of the banking books as well as market, credit and operational risks. Capital requirement internal evaluation is evaluated to be a developing process and the development areas for the future period are determined and plans are prepared.

2. Explanations on consolidated currency risk

Foreign currency risk represents the Group's exposure to loss due to the changes in foreign currency exchange rates. All foreign currency assets, liabilities and foreign currency forward transactions are considered in calculation of capital to be employed for foreign currency risk according to standard method.

The Parent monitors daily the designated limits set by the Board of Directors and additionally observes the possible value changes in foreign currency positions. The limits are determined and followed both for the net foreign currency position and for the cross exchange rate risk within the position. As a tool of foreign currency risk management, foreign currency forward transactions are used when necessary to mitigate the risk.

As of 30 September 2020, the Group has a long position amounting to TL 24,022 (31 December 2019 – TL 446,838 long position), consisting of a balance sheet short position amounting to TL 20,230,160 (31 December 2019 – TL 8,378,733 long position) and an off-balance long position amounting to 20,254,182 (31 December 2019 – TL 7,931,895 short position).

The announced current foreign exchange buying rates of the Parent Bank as of 30 September 2019 and the previous five working days are as follows (full TL):

	23/09/2020	24/09/2020	25/09/2020	28/09/2020	29/09/2020	Balance Sheet Valuation Rate
USD	7.681	7.65277	7.58626	7.77289	7.82037	7.7763

3.3 Realized gains/losses, revaluation surplus, unrealized gains/losses on equity securities and results included in core and supplementary capitals:

None.

4. Consolidated Liquidity risk management and liquidity coverage ratio

The liquidity risk of the Group is the risk of being unable to fulfill its payment obligations on time due to not having enough cash sources or cash inflows to finance its cash outflows fully and on time due to cash flow instabilities. It has been evaluated in two main categories:

Funding Liquidity Risk: It is a kind of risk which does not meet the any unexpected loss and non defaulting debts and liabilities.

Market Liquidity Risk: It is a kind of risk which consists of the position that cannot be sold without affecting market price due to insufficient market depth or market conditions' deterioration or that cannot be completed with the position of market price for any reasons.

Liquidity risk is managed by the Asset - Liability Committee (ALC) and related business units within the framework of the Liquidity Risk Policy and risk appetite approved by the Board of Directors. In liquidity risk management, the measures to be taken and the practices to be carried out are determined by taking into account normal economic conditions and stress conditions. The Bank defines liquidity risk, measures risks with liquidity risk measurement methods in accordance with international standards, monitors them and periodically presents them to the interested parties. Liquidity risk stress tests are performed during monthly periods. An emergency funding plan (liquidity contingency plan) has been created to regulate the procedures and principles for the bank to maintain and maintain adequate liquidity levels under stress conditions.

The Group's liquidity risk ratios are well above the legal limits. The Group maintains its liquidity buffer at high levels, taking into account periods when liquidity risk may increase. Due to this approach, it is evaluated that the negative effects of the COVID-19 pandemic on the global level do not have a significant impact on the Group's liquidity needs.

4.1 Information on risk capacity of the Group, Responsibilities and structure of liquidity risk management, the Bank's internal liquidity risk reporting, communication between the Board of Directors and business lines on liquidity risk strategy, policy and application:

The applications and responsibilities related to the liquidity risk has been determined according to the Treasury Liquidity and Market Management Policies and Practices approved by Board of Directors. The Groups' liquidity and funding policy is to own sufficient liquidity reserve and funding opportunities to meet its liabilities even in cases of stress, resulting from the market conditions or other conditions specific to the Group.

The Group has a strong capital structure and is supported by its main shareholder is Kuwait Finance House; also its current and participation accounts are spread to the base and are stable, and its sources of foreign borrowing are diversified. Hence, by the virtue of the aforementioned facts, the Group has a high risk capacity. In addition, the Liquidity Coverage Ratio of the Group which insures its cash outflows with the high-quality liquid assets is deemed high. The Bank also has limits available for use at Central Bank of Turkey and other financial institutions.

Indicators regarding the liquidity position are analyzed and liquidity risk is evaluated at the ALC meetings attended by the senior management. Furthermore, the Board of Directors are informed through the Audit Committee.

For the management of liquidity risk, the Risk Management Department follows the funding and liquidity risks, market conditions, in the participating accounts, the distribution of different currencies, maturity, cost and expected future cash flow requirements (particularly with regard to large deposits). Reports on the liquidity gap analysis prepared weekly by Budget and Management Reporting and monitored by the Asset and Liability Committee. These units also estimate the possible liquidity needs of the Group in case of urgent situations and generate action plans based on these estimates. Risk Management Department follows the limits on liquidity risk determined by the Board of Directors. Risk Management Department, in addition to these, is implementing monthly liquidity stress tests to measure the effects of negative scenarios on liquidity position of the Group. The Treasury Group Management manages the liquidity risk and funding risk in order to prevent insufficiencies of funding relating to any time or any source and makes reports related with the liquidity position to Asset and Liability Committee regularly. Official and international Reporting Directorate tracks the liquidity coverage ratio and the results are reported to the BRSA.

NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

4.2. Information on the centralization degree of liquidity management and funding strategy and the functioning between the Group and the Group's subsidiaries:

The Group's liquidity management is performed by the Asset and Liability Management. Depending on the Parent Bank's consolidated subsidiaries are subject to liquidity risk is managed in-house, but the necessary communication and coordination within the Assistant General Manager in charge of Treasury and International Banking are provided.

4.3 Information on the Group's funding strategy including the policies on funding types and variety of maturities:

Group's spread to the base of current and participation accounts and that a stable, long-term diversification and aims to be the source of the funds used. Ratio of liquid assets to total assets ratio and risk indicators related to liquidity, credit and the ratio of funds, issues such as the concentration in collected funds are being closely monitored.

4.4 Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Group's total liabilities:

Almost all liabilities of the Group are denominated in Turkish Lira, American Dollar, Euro or Gold. The TL denominated liquidity of the Group is managed through the open market transactions implemented by the Central Bank of the Turkish Republic and interbank operations. Liabilities denominated in TL are used in order to fund assets that are denominated in TL, assets denominated in TL are generated through foreign exchange based funds with swap operations if necessary. Foreign currency funds are provided with the foreign sourced credits denominated in foreign currency and sukuk-financial certificates issued. Liquidity denominated in foreign currency is kept at the interbank operations and accounts of the corresponding bonds within the limits. Liabilities denominated in Gold are kept at the required reserve accounts of the Central Bank of the Turkish substantially.

4.5. Information on liquidity risk mitigation techniques:

Liquidity risk is mitigated by using techniques such as maintaining high quality liquid asset buffer to cover possible fund outflows, diversification of funding sources so far as possible and inclusion to the base, homogenizing the maturity distribution of repayments as far as possible, obtaining limits from funding institutions to use when necessary and ensuring that a determined portion of funding sources are comprised of deposits. In addition, core deposit analysis is performed and concentration on collected funds are closely monitored.

4.6. Information on the use of stress tests:

In order to analyze the source of the possible liquidity insufficiencies and whether conformably move exists on existing off-balance sheet and balance sheet positions relevant with liquidity risk expectation, 3 types liquidity stress tests are applied by Risk Management Directorate. These includes stress test scenarios are special to the Group, related with the overall market or scenarios take in consideration both of the situations. Stress tests related with liquidity risk are repeated at monthly periods. Results are tracked with key risk indicators and monitored by Senior Management.

4.7. General information on emergency funding plan:

Necessary strategy and procedures for the management of possible liquidity crisis are determined with the Emergency Funding Plan, which is approved and reviewed every year by the Executive Risk Committee. The actions to be taken favor the benefits of depositors, creditors of the Bank and shareholders. Indicators of Emergency Funding Plan were determined, in case of unexpected progress at the liquidity situation occur or at situations trigger of other indicators, plan is put into use. After Liquidity Contingency Plan is put into use, Liquidity Contingency Management Committee is responsible from the determination of actions to be taken.

4.8. Presentation of financial liabilities according to contractual maturities

This footnote has not been prepared in accordance with Article 25 of the Communiqué on the financial statements about disclosures to be announced to public by the banks.

22	TOTAL NET CASH OUTFLOWS			10,016,556	5,988,692
23	LIQUIDITY COVERAGE RATIO (%)			314.05	286.49

(*) The average of last three months' liquidity coverage ratio calculated by monthly simple averages.

The table below presents highest, lowest and average liquidity coverage ratios for the period between 1 January – 30 September 2020:

	Highest	Date	Lowest	Date	Average
TL+FC	397.95	28/01/2020	233.35	28/04/2020	325.07
FC	495.60	31/01/2020	196.65	14/06/2020	311.89

The liquidity coverage rate is calculated by the proportion of high quality liquid assets held by the parent bank to its one month maturity cash outflows. Important balance sheet items that determine the rate; Compulsory provisions held by the CBRT, repo / non-repurchase securities, institutional qualified participation accounts, funds from abroad and receivables from banks. These items have more impact on the liquidity coverage ratio than the liquidity assets and net cash outflows, because they have a high share of the current cointegration, high concentration and variability over time.

CASH INFLOWS					
17	Secured receivables	-	-	-	-
18	Unsecured receivables	18,201,958	12,419,370	15,337,019	11,801,428
19	Other cash inflows	12,642,247	6,676,898	12,642,247	6,676,898
20	TOTAL CASH INFLOWS	30,844,205	19,096,268	27,979,266	18,478,326
				Upper Limit Applied Values	
21	TOTAL HQLA STOCK			25,124,149	21,878,298
22	TOTAL NET CASH OUTFLOWS			6,794,577	5,196,059
23	LIQUIDITY COVERAGE RATIO (%)			369.77	421.06

(*) The average of the calculated liquidity coverage ratio for the last three months based on the monthly simple arithmetic average,

The table below presents highest, lowest and average liquidity coverage ratios for 31 December 2019:

Prior Period:

	Highest	Date	Lowest	Date	Average
TL+FC	406.63	21/10/2019	240.00	28/03/2019	321.01
FC	484.90	21/10/2019	266.24	28/03/2019	359.10

The liquidity coverage ratio is calculated by the ratio of the high quality liquid assets of the bank to the net cash outflows within the one-month maturity window. Important balance sheet items which are influential over the aforementioned ratio may be specified as required reserves held in the presence of TC Central Bank, securities not subject to repo/assurance, institutional qualified participation accounts, funds of foreign origins and receivables from banks. These items have a higher influence over the liquidity coverage ratio as their amounts have a higher share of liquid assets and net cash outflows, their consideration rate is higher and they may show variability over time.

5. Explanations on consolidated leverage ratio

5.1 Disclosure of leverage ratio template

The leverage ratio table prepared in accordance with the communiqué “Regulation on Measurement and Assessment of Leverage Ratios of Banks” published in the Official Gazette no. 28812 dated 5 November 2013 is presented below:

On-balance sheet assets (*)		Current Period	Prior Period
1	On-balance sheet items (excluding derivative financial instruments and credit derivatives but including collateral)	152,752,960	103,613,007
2	(Assets amounts deducted in determining Basel III Tier I Capital)	(394,618)	(274,081)
3	Total amount on-balance sheet risks (sum of lines 1 and 2)	152,358,342	103,338,926
Derivative financial instruments and credit derivatives			
4	Replacement cost associated with all derivative instruments and credit derivatives	946,692	288,592
5	The potential amount of credit risk with derivative financial instruments and credit derivatives	387,809	390,743
6	Total risks of derivative financial instruments and credit derivatives (sum of lines 4 to 5)	1,334,501	679,335
Securities or commodity financing transactions (SCFT)			
7	Risks from SCFT assets (excluding on-balance sheet)	1,652,136	572,070
8	Risks from brokerage activities related exposures	-	-
9	Total risks related with securities or commodity financing transactions (sum of lines 7 to 8)	1,652,136	572,070
Other off-balance sheet transactions			
10	Gross notional amounts of off-balance sheet transactions	68,394,174	65,620,425
11	(Adjustments for conversion to credit equivalent amounts)	(42,905,808)	(42,603,597)
12	Total risks of off-balance sheet items (sum of lines 10 and 11)	25,488,366	23,016,828
Capital and total risks			
13	Tier I Capital	9,091,457	7,716,781
14	Total risks (sum of lines 3, 6, 9 and 12)	180,833,345	127,607,159
Leverage ratio			
15	Leverage ratio	5.03	6.05

(*) Amounts in the table are three-month average amounts.

The leverage ratio calculated on the basis of the arithmetic average of the the amounts realized at the end of each month for the past three-month period as of the Group’s consolidated balance sheet date was %5.03 (31 December 2019 - 6.05%). The main reason for the changes from the previous period is that the increase in the items related to the finance transactions secured by securitisation instruments and goods is higher compared to the increase in other items. Accordingly, main capital increased by 18% on profit for the period, while on-balance sheet risk increased by 47% and off-balance sheet increased by 11%. Accordingly, there is a decrease of 102 basis points in the current period leverage ratio compared to the previous period.

6. Explanations on fair value of consolidated financial assets and liabilities

This footnote has not been prepared in accordance with Article 25 of the Communiqué on the financial statements about disclosures to be announced to public by the banks.

7. Explanations on the activities carried out on behalf and account of other persons, fiduciary-based transactions

This footnote has not been prepared in accordance with Article 25 of the Communiqué on the financial statements about disclosures to be announced to public by the banks.

8. Explanations on consolidated hedge accounting practices

TFRS 9 permits to defer application of TFRS 9 hedge accounting principles and permits the companies continue to apply hedge accounting principles of TAS 39 as a policy choice. In this context, while the Bank continues to apply TAS 39 policy for the hedge accounting, Cash Flow Hedge (“CFH”) accounting ended as of 30 September 2020.

The contractual amounts of the derivative financial instruments as of September 30, 2020 and the net fair values of the financial instruments are summarized in the table below:

	Current Period			Prior Period		
	Principal*	Asset	Liability	Principal*	Asset	Liability
Derivative Financial Instruments	-	-	-	-	-	-
Cross currency swap transactions (CFH)	-	-	-	1,289,330	-	129,728
Total	-	-	-	1,289,330	-	129,728

(*) Only the "sell" legs of the related derivative financial instruments are presented. As of 30 September 2020, there is no balance in the Statement of off-balance Sheet for these derivative transactions. Including the purchase legs of TL 1,162,576 on 31 December 2019, the total amount of these derivative transactions Derivative financial instrument principal total of TL 2,451,906 is accounted for in off-balance sheet under “Derivative financial instruments held for risk management” line item

When the hedging instrument expires, is executed or sold and when the hedge relationship becomes ineffective or is discontinued as a result of the hedge relationship being revoked;

- The hedging gains and losses that were previously recognized under equity are transferred to profit or loss when the cash flows of the hedged item are realized,

In case the hedged item is derecognized, hedge accounting is discontinued and within context of fair value hedge accounting, adjustments made to the value of the hedged item are accounted in income statement.

In accordance with TAS, the replacement or rollover of a hedging instrument into another hedging instrument is not an expiration or termination if such replacement or rollover is part of the entity's documented hedging strategy.

Net investment hedge:

The Group applies a net investment hedge strategy to hedge its foreign currency risk due to its net investment of EUR 107,374,082 (Full Amount) of its subsidiary KT Bank AG. The same portion of the Group's foreign currency denominated participation funds is designated as hedging instrument. The effective portion of the exchange rate changes of the foreign currency participation funds in this scope is accounted for under hedging funds account under equity.

Hedging funds account under equity and other comprehensive income regarding net investment hedges have been accounted net (TL 371,332) and net (TL 185,896), respectively in the current period.

NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

Cash flow hedge:

As of 31 December 2020, The Parent Bank, convert Malaysian Ringgit (RM) 800,000 MYR borrowings to USD loan with cross currency swap and this fund was evaluating in profit share-yielding assets in USD. In this context, the Bank has started to implement cash flow hedge accounting on August 1, 2014 to protect itself with cross currency swap against cash flow risks due to the changes in MYR/TL foreign exchange rates on borrowings and changes in USD/TL foreign exchange rates on profit share-yielding assets.

In this context, the derivative financial instruments which are determined as hedging instruments are cross currency swaps and the hedged items are funds borrowed and profit share-yielding assets. However, the accounting of CFH applied by the Bank has ended as of September 30, 2020.

In the below table, the effect of accounting of CFH (current and prior period) is explained:

Current Period					
Type of hedging instrument	Hedged item (asset and liability) (**)	Nature of hedged risks	Net fair value of the hedging instrument		Amount in hedging funds (*)
			Asset	Liability	
Swap Transactions	Loans received and profit share assets	Cash flow risk of exchange rate changes	-	-	-

Prior Period					
Type of hedging instrument	Hedged item (asset and liability) (**)	Nature of hedged risks	Net fair value of the hedging instrument		Amount in hedging funds (*)
			Asset	Liability	
Swap Transactions	Loans received and profit share assets	Cash flow risk of exchange rate changes	-	1.162.576	(11,514)

(*) Includes the deferred tax effect. As of prior period deferred tax effect amounting to TL 2,533

(**) Bank's subsidiary KT Kira Sertifikaları A.Ş. Securities issued by the Parents Bank and presented in the "Securities Issued (net)" line in the financial statements.

At the inception date, the Parent Bank documents the relationship between the hedging instruments and hedged items required by the CFH accounting application in accordance with TAS 39 and its own risk management policies and principles. Every individual relationship is approved and documented in the same way. Effectiveness tests have been selected according to the methods that are allowed by TAS 39 in reliance to the risk strategies of the Participation Bank. Also, effectiveness tests have been performed at the end of every month and the effectiveness of the risk relationships have been measured.

As of September 30, 2020, the Parent Bank does not have any cash flow hedge transaction.

9. Explanations On Consolidated Risk Management

Risk Management System refers to the Board of Directors, the Audit Committee, the Risk Management Committee, Asset-Liability Committee (“ALC”) and the Risk Management Department (“RMD”) which has been composed in order to manage systemic risks that the Parent Bank is exposed. The Board of Directors is the owner of the Parent Bank's Risk Management System and ensures the establishment of an effective, sufficient and appropriate risk management system as well as the continuity of the system. The main objective of the Parent Bank's Risk Management System is to identify, measure, monitor and control the risks that the Parent Bank is exposed to, by determining the policies, limits and procedures to control, to monitor, and if necessary to change the risk-return structure of the Bank's future cash flows and the level & the quality of related activities.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION FIVE

EXPLANATIONS AND NOTES ON THE CONSOLIDATED FINANCIAL STATEMENTS

1. Explanations and notes related to consolidated assets:

1.1. Information regarding the cash assets and the Central Bank of Republic of Turkey:

1.1.1 Cash and balances with the Central Bank of Republic of Turkey:

	Current period		Prior period	
	TL	FC	TL	FC
Cash/foreign currency	547,206	2,514,591	613,156	1,838,246
The Central Bank of Republic of Turkey	570,475	16,930,959	1,155,591	14,498,131
Other (*)	158,775	1,342,260	-	1,111,168
Total	1,276,456	20,787,810	1,768,747	17,447,545

(*) As of 30 September 2020, precious metal account amounting to TL 1,029,266 (31 December 2019 - TL 1,111,144) and money in transit amounting to TL 471,769 (31 December 2019 - TL 24) are presented in this line.

1.1.2 Balances with the Central Bank of Turkey:

	Current period		Prior period	
	TL	FC	TL	FC
Unrestricted demand deposit	557,816	76	730,347	3,201,221
Unrestricted time deposit	-	-	425,000	-
Restricted time deposit	12,659	16,930,883	244	11,296,910
Total	570,475	16,930,959	1,155,591	14,498,131

In accordance with the “Communiqué no. 2013/15 on Reserve Requirements”, the Parent Bank is required to maintain reserves in CBRT for TL and foreign currency liabilities. The reserve requirements can be maintained as TL, USD, EUR and standard gold. CBRT started paying interest on reserve balances held in USD starting from May 2015 and held in TL starting from November 2014. The reserve rates for TL liabilities vary between 1 % and 4 % for TL deposits and other liabilities according to their maturities as of 30 September 2020 (31 December 2019: %1 ile % 7 for all TL liabilities). The reserve rates for foreign currency liabilities vary between 5% and 21% for deposit and other foreign currency liabilities according to their maturities as of 30 September 2020 (31 December 2019: 5% and 21% for all foreign currency liabilities). The reserve rates for precious metal funds vary between 16% and 22% (31 December 2019: 5% and 21% for all precious metal funds liabilities).

1.2 Information on financial assets at fair value through profit and loss:

As of 30 September 2020, there are no financial assets at fair value through profit and loss subject to repurchase transactions, given as a collateral or blocked (31 December 2019 – None).

Positive differences related to marketable derivative financial assets:

1.7 Information on investment in associates (Net):

1.7.1 The 1.49% ownership of the shares of Kredi Garanti Fonu A.Ş. amounting to TL 7,659 (31 December 2019 – TL 7,659), 1.15% ownership of the shares of Islamic International Rating Agency amounting to TL 33 (31 December 2019 – TL 33), Swift shares amounting to TL 390 (31 December 2019 – TL 390) and 0.0035% ownership of the shares traded in Borsa İstanbul A.Ş amounting to TL 15 (31 December 2019 – TL 15), 2.86% ownership of the shares of Ulusal Derecelendirme A.Ş. amounting to TL 2,755 (31 December 2019 – TL 0), are classified as financial assets at fair value through other comprehensive income since the Bank’s ownership in these entities is less than 10% and the Parent Bank does not have a significant influence on these entities.

1.7.2 Information about investments in unconsolidated associates: None (31 December 2019 – None).

1.7.3 Information related to consolidated associates: None (31 December 2019 – None).

1.7.3 Sector information on consolidated associates and their recorded amounts: None (31 December 2019 - None)

1.7.3 Consolidated associates quoted on the stock exchange: None (31 December 2019 - None)

1.8 Information on subsidiaries (Net):

1.8.1 Although the Parent Bank has control power over the management and capital of its non-financial subsidiaries, Körfez Tatil Beldesi Turistik Tesisler ve Devremülk İşletmeciliği San. Ve Tic. A.Ş does not confirm to the definition of financial subsidiary in accordance with “Regulation related to the Preparation of Consolidated Financial Statements by Banks” published in the Official Gazette No. 26340 dated 8 November 2006; hence this subsidiary has not been consolidated. The Bank has reflected its subsidiary at restated cost less any provision for impairment in its financial statements until 31 December 2004.

1.10.3 Information on finance lease contracts:

The Group determines the settlements of the financial lease agreements in accordance with related legislations. Payment terms and amounts may be rearranged with additional agreements upon customers' requests. On the agreements, the Group gives the customer the option to buy the related property. According to the Financial Lease Law, if a customer does not fulfill its obligations until 60 days, the Bank sends a notice to the customer and the Bank takes legal action against the customer if necessary. Non performing finance lease receivables amounting to TL 67,797 are included in the non-performing loans in the balance sheet (31 December 2019 – TL 48,391).

1.11 Information on derivative financial assets for hedging purposes: None (31 December 2019 – None).

1.12 Information on tangible asset

NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

2.3.4 Explanations related to the concentrations of the Parent Bank's major liabilities:

There is no risk concentration of the Parent Bank's current and profit sharing accounts.

Most of the loans received by the Parent Bank consist of foreign currency loans.

2.4. Information on securities issued

The Group has issued sukuks, detailed below. The average return on securities issued is 11% for Turkish Lira and 5% for USD. The maturity of sukuk issued in Turkish Lira is between January 2020 and February 2020; Maturity of sukuk issued in USD is between November 2021.

Current Period	TL		FC	
	Short Term	Medium and Long-Term	Short Term	Medium and Long-Term
Nominal	2,128,000	-	-	3,888,150
Remaining Income Distribution	55,647	-	-	300,098
Book Value	1,559,182	-	-	3,567,293

Perior Period	TL		FC	
	Short Term	Medium and Long-Term	Short Term	Medium and Long-Term
Nominal	750,000	-	-	4,046,277
Remaining Income Distribution	17,808	-	-	894,662
Book Value	735,743	-	-	3,906,422

2.5 Information on other liabilities and miscellaneous payables:

As of 30 September 2020, other liabilities amount to TL 1,473,182 (31 December 2019 – TL 1,111,061), sundry creditors amount to TL 947,930 (31 December 2019 - TL 388,179), both of them do not exceed 10% of the balance sheet total.

2.6 Information on finance lease payables (net):

	Current Period		Prior Period	
	Gross	Net	Gross	Net
Less than 1 year	146,198	90,695	124,506	87,233
1 to 4 years	255,914	189,574	294,798	169,220
More than 4 years	127,494	96,273	139,376	97,598
Total	529,606	376,542	558,680	354,051

The Group used FTP (Fund Transfer Pricing) rates as an alternative borrowing rate of profit at 1 January 2019. Relevant ratios are revised and revised in 2-week periods after 1 January 2019. The change in Participation Bank payments uses an unmodified discount rate unless the variable profit share rate is related. If the change in the lease payments results from variable profit share rates (LIBOR, EURIBOR), the lessee used a revised discount rate reflecting changes in the profit share rate.

2.6.1. Explanations on contract changes and the new obligations these changes bring to the Group:

None (31 December 2019 – None).

2.6.1.1. Explanations on financial leasing obligations

None (31 December 2019 – None).

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

2.6.1.2. Explanations on operating lease:

Leasing is classified as an operating lease in which the lessor holds all the risks and benefits of that asset. Such transactions include lease agreements belonging to branches, which can be cancelled with prior notice.

There are no significant obligations imposed by the changes in the contract related to the operating lease to the Group.

The group registers its lease payments based on operating lease agreements with equal amounts of expenses during the lease term.

2.7 Information on hedging derivative financial liabilities:

	Current Period		Prior Period	
	TL	FC	TL	FC
Fair value hedge	-	-	-	-
Cash flow hedge	-	-	-	129,728
Hedge of net investment in foreign operations	-	-	-	-
Total	-	-	-	129,728

2.8 Information on provisions:

2.8.1 Information on provisions related with foreign currency evaluation difference of foreign currency indexed loans: As of 30 September 2020, effect of decrease in exchange rates on foreign currency indexed loans amounting to TL 181 (31 December 2019 – TL 5) and TL 34 for leasing receivables (31 December 2019 – TL 192) is offset against loans and receivables.

2.8.2 Information on other provisions:

	Current Period	Prior Period
Specific provisions for non cash loans that are not indemnified converted into cash	441,989	422,274
General Provisions for non-cash loans	185,830	127,145

Credit cards of banking services applications	2,839	2,332
Other (*)	114,744	96,212
Total	1,124,827	798,897

(*) The other part of the main period amounting to TL 36,850 (December 31, 2019 - TL 25,573) is TL 2,008 (31 December 2019 - TL 6,500) for the expense of TL 75,886 (31 December 2019 - TL 60,976) is the amount for other provision.

2.8.3 Information on provisions for employee benefits:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 145,171 (31 December 2019 – TL 122,748), vacation pay liability amounting to TL 7,302 (31 December 2019 – TL 712), performance premium amounting to TL 90,806 (31 December 2019 – TL 124,414), retirement bonuses on payment of TL 66,098 (31 December 2019 – TL 56,931), committee fee amounting to TL 11,152 (31 December 2019 – TL 12,321) and other fees amounting to TL 1,326 (31 December 2019 – TL 196).

Under the Turkish Labor Law, the Parent Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or earns the right to retire.

The amount payable consists of one month's salary limited to a maximum of TL 6,730.15 (full amount) (31 December 2019 – TL 6,379.86) for each year of service. The liability is not funded, as there is no funding requirement.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

The reserve has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability.

	Current Period	Prior Period
Discount rate (%)	12.10	12.10
Inflation rate (%)	8.00	8.00
Salary increase rate (%)	13.50	25.00

Movements in the reserve for employment termination benefits during period are as follows:

	Current Period	Prior Period
Balance at the beginning of the period	116,242	89,508
Effect of changes in accounting policy	6,506	3,816
Provisions recognized during the period	26,573	30,957
Paid during the period	(4,150)	(7,319)
Actuarial loss	-	5,786
Balances at the end of the period	145,171	122,748

2.9 Explanations on tax liability:

2.9.1 Explanations on current tax liability:

2.9.1.1 Information on tax provisions: TL 175,095. (31 December 2019 – TL 255,397)

2.9.1.2 Information on taxes payable:

	Current Period	Prior Period
Taxation of marketable securities	38,559	39,489
Taxation of immovable property	950	1,796

NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 SEPTEMBER 2020

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

2.10 Information on payables related to assets held for sale:

None (31 December 2018 – None).

2.11 Information on subordinated loans:

This footnote has not been prepared in accordance with Article 25 of the Communiqué on the financial statements about disclosures to be announced to public by the banks.

2.12 Information on shareholders' equity:

2.12.1 Presentation of paid-in capital:

	Current Period	Prior Period
Common shares	4,600,000	4,000,000
Preference shares	-	-
Repurchased shares amount (*)	(4,869)	(4,234)
Total	4,595,131	3,995,766

(*) It represents the Bank's acquisition of its own shares as a result of the Bank's shareholders not using their right of preference according to the commitment made in the capital increase in the Bank.

2.12.2 Amount of Paid-in Capital, Disclosure on whether the Bank Applies the Registered Share Capital System, and, if so, the Ceiling Amount of the Registered Share Capital:

Registered capital system is not applied in the Parent Bank.

2.12.3 Information on the share capital increases during the period and their sources; other information on increased capital shares in the current period:

Date Of Increase	Amount Of Increase	Cash	Profit Reserves Subject To Increase
30-March-20	600,000	-	600,000

The Parent Bank has made a capital increase of 600,000 TL in accordance with the decision numbered 7 at the ordinary general assembly meeting held on 26 March 2020. 599,611 TL of the capital increase has been covered by the Bank's profit in 2019, and 389 TL of this amount that it was covered by the profit of the period obtained under Law No. 5746 and transferred to other reserves in 2019.

2.12.4 Information on share capital increases from capital reserves during the current period:

None

2.12.5 Possible effect of estimations made for the Group's revenues, profitability and liquidity on equity considering prior period indicators and uncertainties:

Based on the evaluation made considering the Group's prior and current period indicators related to net profit share and commission income, it is observed that the Bank continues its operations profitably.

2.12.6 Summary of privileges given to shares representing the capital:

None (31 December 2019- None).

1.1 About Kuveyt Türk

Kuveyt Türk Katılım Bankası A.Ş. ("The Bank") was incorporated with the approval of the Central Bank of the Republic of Turkey (CBRT) on 28 February 1989 and commenced its operations on 31 March 1989, with the name of Kuveyt Türk Evkaf Finans Kurumu A.Ş. To comply with the Banking Act 5411, the title of the Bank has been changed to Kuveyt Türk Katılım Bankası A.Ş. with a change in the Articles of Association which was approved in the annual general meeting dated 26 April 2006. Main field of operation is, in addition to the Bank's equity, to collect funds from domestic and foreign customers through "Current Accounts" and "Profit/ Loss Sharing Accounts" and allocate such funds to the economy, to perform all kinds of financing activities in accordance with the regulations, to encourage the investments of all individuals and legal entities operating in agricultural, industrial, trading and service industries, participating into the operations of these entities or individuals and to form joint business partnerships and to perform all these activities in a non-interest environment.

62.24% of the Bank's shares are owned by Kuwait Finance House located in Kuwait, 18.72% by Vakıflar Genel Müdürlüğü Mazbut Vakıfları, 9.00% by Wafra International Investment Company in Kuwait and 9.00% by Islamic Development Bank whereas the remaining 1.04% of the shares are owned by other real persons and legal entities.

1.3 Message from the Chairman

Global economic activity, which gained a relatively stable appearance on a global scale in the first half of 2020 with the developments that led to the end of protectionist policies, was limited by the new type of coronavirus (SARS-COV-2) epidemic, which had an impact as of the first quarter of the year and increased rapidly in the second quarter. As a matter of fact, the risks faced by the economies of the country in terms of employment, supply chains, and production capacity due to the epidemic made it necessary to take comprehensive monetary and financial measures on a global scale.

Interest cuts, asset purchase programs, and loan support packages led by central banks and public authorities of developed and developing countries alleviated the impact of the epidemic on economic activity. In this direction, the International Monetary Fund (IMF) has revised its forecast of 5.2 percent contraction for 2020 in its Global Economic Outlook Report to 4.4 percent positively. It was stated that the prediction in question was developed depending on the earlier than expected recovery in economic activity with the decrease in quarantine measures and this improvement is an indicator of a stronger recovery.

While the FED maintains the policy rate at 0.25 percent, it continues its asset purchase programs with a monthly volume of 120 billion dollars. Following the second quarter of 2020, which was recorded as the worst quarter in terms of economic performance and the negative impact of the new type of coronavirus (SARS-COV-2) epidemic on the economy was felt intensely, the US economy recorded a record growth of 33.1 percent on an annual basis in the third quarter.

The European Central Bank, on the other hand, did not change the current monetary policy at its meeting held in October and left the policy rate unchanged at 0 percent. It was stated that the asset purchase program, which started in March and reached a volume of 1.35 trillion Euros in total, could be expanded. In the third quarter of 2020, where the normalization process accelerated, the regional economy recorded a record growth of 12.7 percent on a quarterly basis and contracted by 4.3 percent on an annual basis.

The banking sector, which plays an active role in the process of fighting the epidemic, continues it's supported at the real economy in this process. Kuveyt Türk Participation in the financial sector, as well as one of the most important actors, will continue to contribute to sustainable growth in Turkey's economy.

With its fast and solution-oriented technological infrastructure, Kuveyt Türk has shaped its main focus within the framework of the health of its customers and employees in the new period dominated by epidemic conditions. In the third quarter of 2020 within the scope of the fight against the epidemic, which continued its support for the real sector without compromising the measures taken Kuveyt Türk, prioritizing human health in the last quarter of the year also continues to support Turkey's economy.

Hamad Abdulmohsen ALMARZOUQ
Head of the BOD

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

1.4 Message from the General Manager

The new type of coronavirus (SARS-COV-2) outbreak was an important factor affecting the global macroeconomic outlook as of the first quarter of 2020. Following the losses in the first half of the year, the third quarter has been a period in which the normalization process accelerated and strong signs of recovery were observed in economic activity. Comprehensive actions, including monetary and financial support, led by central banks and public authorities, have become the most important factors in balancing the economy and transition to the new normal process.

Kuveyt Türk, which has been serving for more than 30 years with its products and services developed in line with the principles of participation finance, increased its profitability in the third quarter of 2020 and increased its net profit by 33.3% compared to the same period of the previous year and reached 1 billion TL. The size of the funds collected by Kuveyt Türk reached 119.3 billion TL with an increase of 39.6% compared to the end of 2019, while the size of the funds provided increased by 36.3% to 78.9 billion TL. Having increased its equities to 7.5 billion TL and its asset size to 153 billion TL, Kuveyt Türk maintained its first place among participating financial institutions in terms of asset size.

Turkey's leading participation of financial institutions with Kuveyt Türk, Great Place to Work, organized by the Institute and one of the world's most prestigious organization in the field of human resources "Europe's Best Employers 2020" has entered the list. The first financial institutions that fall under this list from Turkey to Kuveyt Türk also achieved the success of being the first bank in Europe to get its name listed in the field of Islamic finance.

Increasing its support to the real sector, Kuveyt Türk started the second phase in the third quarter with the machine finance campaign launched in February and continued until the end of April for its commercial customers to contribute to production and investment. Providing financial support to its commercial customers with attractive profit rates, Kuveyt Türk provided financing support of up to TL 1 billion to businesses with maturity options of up to 60 months, 6 months grace period. Thus, the support given to production and investment at the end of the two campaigns reached approximately 1.8 billion TL in total.

At the Kuveyt Turk Banking School, which Kuveyt Türk launched in 2017 by signing a first in the sector, the training for employees continued online during the epidemic process. Kuveyt Turkish Banking School, where employees receive training in many areas such as the Data Analyst Training Program, the Data Scientist Training Program, and the Digital Competence Development Program, as well as professional and competency development training, Excellence Awards organized by Brandon Hall Group, one of the most prestigious consultancy companies, as a result of its successful work. He was awarded 10 awards, 4 of which were gold.

Kuveyt Turk, strong capital and liquidity position, high asset quality, dynamic approach to corporate governance, continuous improvement focused on the customer service model, technology continued investment in, the digital conversion work and overseas expansion to accelerate the coming period leading provider of the contribution of the financial sector in Turkey aims to continue to be.
