## **Report on Review of Condensed Consolidated Interim Financial Information**

To the Board of Directors of  
Kuveyt Türk Katılım Bankası Anonim Şirketi  
İstanbul

### **Introduction**

We have reviewed the accompanying condensed consolidated financial statements of Kuveyt Türk Katılım Bankası A.Ş. ( the “Bank”) and its subsidiaries (together the “Group”), which comprise the condensed consolidated statement of financial position as of June 30, 2016, and the condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34.

Amendments to IAS 1	<i>Disclosure Initiative</i> <sup>1</sup>
Amendments to IFRS 10, IFRS 12 and IAS 28	<i>Investment Entities: Applying the Consolidation Exception</i> <sup>1</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2016.

#### **IFRS 14 *Regulatory Deferral Accounts***

IFRS 14 *Regulatory Deferral Accounts* permits an entity which is a first-time adopter of International Financial Reporting Standards to continue to account, with some limited changes, for 'regulatory deferral account balances' in accordance with its previous GAAP, both on initial adoption of IFRS and in subsequent financial statements.

IFRS 14 was issued by the IASB on 30 January 2014 and is applied to an entity's first annual IFRS financial statements for a period beginning on or after 1 January 2016.

#### **Amendments to IFRS 11 *Accounting for Acquisition of Interests in Joint Operations***

This amendment requires an acquirer of an interest in a joint operation in which the activity constitutes a business to:

- apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11,
- disclose the information required by IFRS 3 and other IFRSs for business combinations.

#### **Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortisation***

This amendment clarifies that that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment, and introduces a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendment also adds guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

###### ***Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants***

This amendment include 'bearer plants' within the scope of IAS 16 rather than IAS 41, allowing such assets to be accounted for a property, plant and equipment and measured after initial recognition on a cost or revaluation basis in accordance with IAS 16. The amendment also introduces a definition of 'bearer plants' as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales, and clarifies that produce growing on bearer plants remains within the scope of IAS 41.

###### ***Amendments to IAS 27 Equity Method in Separate Financial Statements***

This amendment permits investments in subsidiaries, joint ventures and associates to be optionally accounted for using the equity method in separate financial statements.

###### ***Annual Improvements 2012-2014 Cycle***

**IFRS 5:** Adds specific guidance in IFRS 5 for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases in which held-for-distribution accounting is discontinued.

**IFRS 7:** Additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset, and clarification on offsetting disclosures in condensed interim financial statements.

**IAS 19:** Clarify that the high quality corporate bonds used in estimating the discount rate for post-employment benefits should be denominated in the same currency as the benefits to be paid.

**IAS 34:** Clarify the meaning of 'elsewhere in the interim report' and require a cross-reference.

###### ***Amendments to IAS 1 Disclosure Initiative***

This amendment addresses perceived impediments to preparers exercising their judgment in presenting their financial reports.

##### **Amendments to IFRS 10, IFRS 12 and IAS 28 *Investment Entities: Applying the Consolidation Exception***

This amendment addresses issues that have arisen in the context of applying the consolidation exception for investment entities by clarifying the following points:

- The exemption from preparing consolidated financial statements for an intermediate parent entity is available to a parent entity that is a subsidiary of an investment entity, even if the investment entity measures all of its subsidiaries at fair value.
- A subsidiary that provides services related to the parent's investment activities should not be consolidated if the subsidiary itself is an investment entity.
- When applying the equity method to an associate or a joint venture, a non-investment entity investor in an investment entity may retain the fair value measurement applied by the associate or joint venture to its interests in subsidiaries.
- An investment entity measuring all of its subsidiaries at fair value provides the disclosures relating to investment entities required by IFRS 12.

##### 2.3.3 New and revised IFRSs in issue but not yet effective

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective

##### ***Amendments to IAS 12 Recognition of Deferred Tax Assets for Unrealized Losses***

This amendment clarifies the following aspects:

- Unrealized losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument's holder expects to recover the carrying amount of the debt instrument by sale or by use.
- The carrying amount of an asset does not limit the estimation of probable future taxable profits.
- Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences.
- An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilization of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type.

##### ***Amendments to IAS 7 Disclosure Initiative***

This amendment clarifies that entities shall provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities.

##### ***IFRS 9 Financial Instruments***

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 was amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a "fair value through other comprehensive income ("FVTOCI") measurement category for certain simple debt instruments.

##### ***IFRS 15 Revenue from Contracts with Customers***

IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer,
- Identify the performance obligations in the contract,
- Determine the transaction price,
- Allocate the transaction price to the performance obligations in the contracts,
- Recognize revenue when the entity satisfies a performance obligation.

##### ***Amendments to IFRS 15 Revenue from Contracts with Customers***

This amendment clarifies three aspects of the standard (identifying performance obligations, principal versus agent considerations, and licensing) and provides some transition relief for modified contracts and completed contracts.

##### ***Amendments to IFRS 2 Classification and Measurement of Share-Based Payment Transactions***

This amendment clarifies the standard in relation to the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with net settlement features, and the accounting for modifications of share-based payment transactions from cash-settled to equity settled.

##### **IFRS 16 Leases**

This new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 "Leases" and related interpretations and is effective for periods beginning on or after 1 January 2019, with earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied.

The group evaluates the effects of these standards, amendments and improvements on the consolidated financial statements.

#### **2.4 Functional and presentation currency**

The functional currency of the Bank and its Subsidiaries located in Turkey is Turkish Lira (TL). The functional currency of Dubai Limited is US Dollar and the functional currency of KT Bank AG is Euro (EUR). The presentation currency of the Group is TL.

#### 2. Basis of presentation and accounting policies (continued)

##### 2.5 Foreign currency translation (continued)

Foreign currency exchange rates used by the Group as of respective period-ends are as follows :

Dates	USD / TL	EUR / TL
June 30, 2015	2.69	2.98
December 31, 2015	2.91	3.18
June 30, 2016	2.89	3.20

As at the reporting date, the assets and liabilities of the Bank's foreign subsidiaries are (Kuwait Turkish Participation Bank Dubai Ltd and KT Bank AG) translated into the Bank's presentation currency at the rate of exchange at the balance sheet date, and its income statement is translated at the USD/TL 2.92, EUR/TL 3.26 average exchange rate for the period. Exchange differences arising on translation are taken directly to a separate component of equity.

##### 2.6 Critical judgements and estimates

In preparing these condensed consolidated interim financial statements, the significant estimates, judgments and assumptions made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were same as those that applied to the annual consolidated financial statements as at and for the year ended December 31, 2015.

##### 2.7 Reclassifications

No reclassifications.

#### 3. Segment Information

For management purposes, the Group is organized into five business segments:

**Retail Banking** – Principally handling individual customers' current, saving and investment accounts and providing loans, consumer loans, credit cards facilities and funds transfer facilities. Segment portfolio comprised of all Turkish individuals that have deposits under TL 1.2 million and loans that are less than TL 750,000 (full amount) and all foreign nationals' loans that are less than TL 500,000 (full amount).

**Small and Medium Business Banking** – Principally handling loans and other credit facilities and current, saving and investment accounts for small and medium sized enterprises. Segment portfolio comprised of all businesses that have annual sales turnover up to TL 5 million full amount and their owners.

**Commercial Banking** – Principally handling loans and other credit facilities and current, saving and investment accounts for institutional customers. Segment portfolio comprised of all businesses that have annual sales turnover between TL 5 million - TL 150 million and their individual owners.

**Corporate Banking** – Principally handling loans and other credit facilities and current, saving and investment accounts for all corporate customers. Segment portfolio comprised of all businesses that have annual sales turnover more than TL 150,000,000 (full amount) and their individual owners.

**Treasury International & Investment Banking** – Principally handling foreign relations with respect to receiving syndication loans, interest free investment instruments and carrying relations with correspondent banks.

#### 3. Segment Information (continued)

The Group's operating business is organized and managed in Turkey according to the nature of the products sold and services provided. More than 90% of the operations are performed in Turkey for each of the periods presented. None of the other geographical divisions satisfy reportable segment conditions and therefore the financial statements do not include separate geographical segment information. No revenue from transactions with a single external customer or counterparty amounted to 10% or more of the Bank's total revenue in the first half of 2016 or 2015.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Income taxes are managed on a group basis and are not allocated to operating segments.

#### 13. Income taxes

##### Corporate Tax

The Group is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Group's results for the years and periods. Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying condensed consolidated interim financial statements, have been calculated on a separate-entity basis. Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

In Turkey, corporate income tax is levied at the rate of 20% on the statutory corporate income tax base for the six month period ended June 30, 2016. This rate was 20% for the six month period ended June 30, 2015 as well. Capital gains arising from the disposal of property and equipment and investments owned for at least two years are exempt at a rate of 75% from corporate tax provided that such gains are reflected in equity with the intention to be utilized in a share capital increase within five years from the date of the disposal. The remaining 25% of such capital gains are subject to corporate tax.

In Turkey, advance tax returns are filed on a quarterly basis. The advance corporate income tax rate applied in 2016 is 20%. (2015: 20%). Losses can be carried forward for offset against future taxable income for up to 5 years. However, losses cannot be carried back for offset against profits from previous periods.

Furthermore, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1-25 April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

#### 13. Income taxes (continued)

##### Income Withholding Tax

In addition to corporate taxes, companies should also calculate income withholding taxes and funds surcharge on any dividends distributed, except for companies receiving dividends who are Turkish residents and Turkish branches of foreign companies. From 23 July 2006, withholding income tax rate is 15% upon the Council of Ministers' Resolution No: 2006/10731. Undistributed dividends incorporated in share capital are not subject to income withholding tax.

In addition, it is decided to stay of execution until the publication of the decision in the Official Gazette, to avoid the circumstances and losses that are difficult or impossible to compensate subsequently and for that the annulment decision does not remain inconclusive, due to the fact that aforementioned sentence is repealed by the decision no: E. 2010/93 K. 2012/20 as of February 9, 2012 at the same meeting.

##### Other reserves

The Bank has bought 25% share of the joint venture called Körfez İnşaat İş Ortaklığı, which was established by Körfez and a third party company who had 75% and 25% stakes, respectively. The Bank has bought the 25% stake of the third party company in Körfez İnşaat İş Ortaklığı for a total consideration of TL 22,589 in exchange of releasing the debt of the third party company to the Bank amounting to TL 15,888 and taking over the debt of the third party company to Körfez İnşaat İş Ortaklığı amounting to TL 6,701. The purchase price has been determined based on the expected discounted future cash flows of Körfez İnşaat İş Ortaklığı. Since the amount of the non-controlling interest in Körfez İnşaat İş Ortaklığı is negligible, the total consideration amounting to TL 22,589 recognized as a separate component of equity as being the difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid.

#### 19. Fair value of financial instruments

##### Fair values

The fair value of the fixed rate financial assets carried at amortized cost are estimated by comparing market profit rates when they were first recognized with current market rates offered for similar financial instruments. As of 30 June 2016, the fair value of financing and leasing receivables has been estimated as TL 27,112,779 (December 31, 2015 – TL 27,568,091) whereas their carrying amount is TL 27,811,911 (December 31, 2015 – TL 25,852,466).

For other short-term financial assets and liabilities, fair value is estimated to approximate carrying value due to their short term or non-interest bearing structures.

To the extent relevant and reliable information is available from financial markets in Turkey, the fair value of financial instruments is based on such market data. The fair values of other financial instruments are determined by using estimation techniques that include reference to the current market value of another instrument with similar characteristic or by discounting the expected future cash flows at prevailing profit rates.

##### Hierarchy of valuation techniques which establishes basis for fair value calculation of financial assets and liabilities

Level I: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level II: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level III: Inputs for the asset or liability that are not based on observable market data

Fair value hierarchy of the financial assets and liabilities of the Bank carried at fair value according to the foregoing principles as of June 30, 2016 are given in the table below:
