**Kuveyt Türk Katılım Bankası Anonim Şirketi  
Independent auditors' limited review report  
for the interim period ended June 30, 2011**

To the Board of Directors of Kuveyt Türk Katılım Bankası A.Ş.:

We have reviewed the unconsolidated balance sheet of Kuveyt Türk Katılım Bankası A.Ş. (the Bank) as of June 30, 2011 and the related unconsolidated statements of income, income and expenses accounted under equity, unconsolidated cash flows and changes in shareholders' equity for the period then ended. These unconsolidated financial statements are the responsibility of the Bank's management. As independent auditors, our responsibility is to issue a report based on the review performed on these financial statements.

We conducted our review in accordance with the regulations on account and booking system and the accounting and independent audit principles set out as per the Banking Law No: 5411. Those principles require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review is principally limited to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information; it is substantially less in scope than an audit and thus provides a less assurance than audit. We have not performed an audit and accordingly we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements do not give a true and fair view of the financial position of Kuveyt Türk Katılım Bankası A.Ş. as of June 30, 2011 and the results of its operations and its cash flows for the period then ended in accordance with the prevailing accounting principles and standards set out by regulations in conformity with Article No: 37 of the Banking Law No: 5411, and other regulations, communiqués, interpretations and circulars published by Banking Regulation and Supervision Agency on Accounting and Financial Reporting Principles.

As explained in detail in Note XXIII of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with article 37 of the Banking Law No. 5411, the accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**Kuveyt Türk Katılım Bankası Anonim Şirketi****Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)****Section one  
General information****I. History of the Bank including its incorporation date, initial legal status and amendments to legal status:**

Kuveyt Türk Katılım Bankası A.Ş. (“the Bank”) was incorporated with the approval of the Central Bank of Turkey (CBT) on February 28, 1989 and commenced its operations on March 31, 1989, with the name of Kuveyt Türk Evkaf Finans Kurumu A.Ş. To comply with the Banking Act 5411, the title of the Bank has been changed to Kuveyt Türk Katılım Bankası A.Ş. with a change in the Articles of Association which was approved in the annual general meeting dated April 26, 2006. Main field of operation is, in addition to the Bank’s equity, to collect funds from domestic and foreign customers through “Current Accounts” and “Profit Loss Sharing Accounts” and allocate such funds to the economy, to perform all kinds of financing activities in accordance with the regulations, to encourage the investments of all individuals and legal entities operating in agricultural, industrial, trading and service industries, participating into the operations of these entities or individuals and to form joint business partnerships and to perform all these activities in a non-interest environment.

**II. Shareholding Structure, Shareholders Jointly or Individually Having Direct or Indirect, Control over the Management and Supervision of the Bank and the Disclosures on Any Related Changes in the Current Period, if any and information about the Group that the Bank belongs to:**

As of June 30, 2011 and December 31, 2010, 62.23% of the Bank’s shares are owned by Kuwait Finance House located in Kuwait, 18.72% by Vakıflar Genel Müdürlüğü Mazbut Vakıfları, 9.00% by The Public Institution For Social Security in Kuwait and 9.00% by Islamic Development Bank whereas the remaining 1.05% of the shares are owned by other real persons and legal entities.

**III. Explanations on the Titles of Chairman and Members of the Board of Directors, Members of the Audit Committee, General Managers and Assistant General Managers and Their Shareholdings in the Bank:**

<b>Total</b>	<b>769,061</b>	<b>80.95%</b>	<b>769,061</b>	<b>-</b>

**V. Explanations of the Bank's services and field of operations:**

The Bank's field of operations includes corporate banking, international banking services, and retail banking and credit card services. The Bank's core business is operating in accordance with the principles of interest-free banking as a participation bank by collecting funds through current and profit/loss sharing accounts, and lending such funds to its customers. As of June 30, 2011, the Bank is operating with 3,023 employees (December 31, 2010 – 2,834). Summary of some of the Bank's operations described in the Articles of Association are as follows:

- To collect funds through "Current Accounts" and "Profit/Loss Sharing Accounts" and special fund pools in line with the regulations;
- To allocate funds to the economy and provide all kinds of cash, non-cash loans within the principles of non-interest banking;
- To offer financial and operational leasing;
- To handle all kinds of deposits and payments, including travelers' checks, credit cards and other payment instruments, provide member business services (POS), consulting, advisory, and safe deposit box services;
- To purchase financial instruments on money and capital markets in cash or installments, sell and mediate the sale and trade on the stock exchange in accordance with legislation and principles of non-interest banking;
- To purchase, acquire and construct any kind of real estate and if necessary lease or transfer ownership to other persons;
- To act as a representative, deputy or agent for corporations and enterprises (including insurance companies);
- To provide socially responsible aid for the benefit of the community in the light of the legislations.

The Bank's activities are not limited to the list above. If another transaction is decided to be beneficial to the Bank, the transaction must be recommended by the Board of Directors, approved by the General Committee and authorized by relevant legal authorities after which it also needs to be approved by the Ministry of Customs and Trade since it constitutes an amendment of the Article of Association. Decisions that have been approved through all these channels are included to the Article of Association.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

**Section three**

**Accounting principles**

**I. Explanations on basis of presentation**

**a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on Accounting Applications for Banks and Safeguarding of Documents’:**

The unconsolidated financial statements have been prepared in accordance with the ‘Regulation on Accounting Applications for Banks and Safeguarding of Documents’ numbered 5411 published in the Official Gazette No.26333 dated November 1, 2006, which refers to ‘Turkish Accounting Standards’ (TAS) and ‘Turkish Financial Reporting Standards’ (TFRS) issued by the ‘Turkish Accounting Standards Board’ (TASB) and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles (all ‘Turkish Accounting Standards’ or ‘TAS’) published by the Banking Regulation and Supervision Agency. The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to Those Financial Statements”, published in Official Gazette No. 26430, dated February 10, 2007, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish tax legislation.

In accordance with the Article 37 of the Banking Act 5411, the Banks must apply the uniform chart of accounts in their accounting systems in accordance with the procedures and principles identified by the Banking Regulation and Supervision Agency (BRSA) by taking into account the international standards and opinions of the TASB and other associations of the banking sector into consideration; record all transactions in accordance with their underlying nature; prepare clear, reliable, comparable, suitable for audit, analysis and interpretation, timely and accurate financial reports in a form and content that meets the information requirements of users.

**b. Accounting policies and valuation principles applied in the preparation of unconsolidated financial statements:**

Accounting policies and valuation methods used in the preparation of financial statements have been applied as specified in the related communiqués, pronouncements and regulations of TAS and BRSA. The accounting policies adopted in the preparation of the year end financial statements are consistent with those adopted in the preparation of the financial statements as of December 31, 2010. TAS/TFRS changes, which will be effective starting from January 1, 2011, (TFRIC 14 (Change) “Prepayments of a Minimum Funding Instrument”; TAS 32 (Change), “Classification on Rights Issue”; TFRIC 19, “Extinguishing Financial Liabilities with Equity Instruments; TAS 24, “Related Party Disclosures” and Improvements to TFRS (issued in 2010)) do not have an effect on the Bank’s accounting policies, financial position or performance. The accounting policies and valuation principles used in the preparation of unconsolidated financial statements are explained in Notes II and XXII below.

## **Kuveyt Türk Katılım Bankası Anonim Şirketi**

### **Notes related to unconsolidated financial statements for the interim period ended June 30, 2011 (continued) (Currency – Thousands of Turkish Lira)**

“Communiqué related to Changes in Communiqué on Financial Statements and Related Disclosures and Footnotes to be announced to Public by Banks” published in the Official Gazette dated January 23, 2011 and numbered 27824 has set out the financial statement formats for the banks which selected to early adopt TFRS 9 “Financial Instruments” before January 1, 2013. This standard will primarily have an effect on the classification and measurement of the Bank’s financial assets. The Bank has not early adopted this standard and is currently assessing the impact of adopting it. However, as the impact of adoption depends on the financial asset management models applied and the financial assets held by the Bank at the date of adoption, it is not practical or possible to quantify the effect at this stage. As of the date of these financial statements, the other TAS/TFRS standards announced but not yet effective are not expected to have significant impact on the Bank’s accounting policies, financial position and performance.

The unconsolidated financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities held for trading carried at fair value.

The preparation of unconsolidated financial statements in conformity with TAS requires the Bank management to make assumptions and estimates with respect to assets and liabilities on the balance sheet and contingent issues outstanding as of the balance sheet date. These assumptions and estimates are mainly related with the determination of the fair values of the financial instruments and determination of the impairments on assets and these assumptions are being reviewed regularly and, when necessary, appropriate corrections are made and the effects of these corrections are reflected to the income statement.

#### **c. Preparation of the financial statements in the current purchasing power of money:**

Until December 31, 2004, the financial statements of the Bank were subject to inflation adjustments in accordance with Turkish Accounting Standard No: 29 “Financial Reporting in Hyperinflationary Economies” (“TAS 29”). BRSA explained with its decision numbered 1623 and dated April 21, 2005 and its circular dated April 28, 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied beginning from January 1, 2005.

#### **d. Reclassifications:**

Prepayments with respect to temporary corporate taxes amounting to TL 36,564, which was classified as other assets in the balance sheet as of December 31, 2010, has been netted off from current tax liabilities line item in the balance sheet as of December 31, 2010 to be consistent with the current year presentation.

## **II. Explanations on strategy of using financial instruments and foreign currency transactions**

The Bank follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Bank’s exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Bank’s equity. The assets-liabilities committee (ALCO) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates published by the Central Bank of Turkey converting them into Turkish Lira. Valuation differences of foreign currencies have been recognized in the income statement under the 'Net foreign exchange income/expense' account.

The Bank's portion of risk regarding loans originating from participation accounts followed in receivables to be written off, doubtful commission, fees and other receivables, uncollectible loans and other receivables, along with foreign currency (FC) loans and receivables originating from the Bank's equity and private current accounts are converted to Turkish Lira with the rates prevailing at the date of the transfer of such receivables to non-performing loan portfolio. The participation accounts' portion of the risk of the foreign currency loans and FC pegged loans, originating from participation accounts, is evaluated with the current foreign currency rates and the differences are recorded foreign currency gains/losses account in the income statement.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement.

There are no foreign currency differences capitalized by the Bank.

**III. Explanations on forward transactions and option contracts and derivative instruments:**

The Bank enters into forward agreements to decrease its currency risk and to manage its foreign currency liquidity. The Bank classifies its derivative instruments as "Held for Hedging" and "Held for Trading" in accordance with TAS 39. Even though some derivative transactions economically hedge risk, since all necessary conditions for hedge accounting are not met, they are accounted for as "held for trading" within the framework of TAS 39, and are reflected in the "Derivative Financial Assets/Liabilities Held for Trading" account in the balance sheet.

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their notional amounts.

Fair values of foreign currency forward transactions and swaps are calculated by using the discounted cash flow model. Differences resulting from the changes in the fair values of derivatives held for trading are accounted under 'Trading Income/Loss' line in the income statement.

Embedded derivatives are separated from the host contract if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative and the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss. Embedded derivatives are accounted as derivative instruments in-line with TMS 39. If the embedded derivatives are closely related with the host contract, embedded derivatives are accounted for in-line with the relevant standard applicable for the host contract.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

**IV. Explanations on profit share income and expense**

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. In accordance with the related regulation, the profit share accruals of non-performing loans are cancelled and are not recorded until the profit share income is realized

The Bank calculates expense accrual in accordance with the unit value calculation method on profit/loss sharing accounts and reflects these amounts in “Funds Collected” account on the balance sheet.

**V. Explanations on fees and commission income and expenses**

Except for the fees and commission income and expenses obtained for some banking services which are recorded as income when collected, fees and commission income/expenses are reflected in the income statement over the period of the related transaction.

In accordance with the provisions of TAS the commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the Deferred Revenues account under Other Liabilities on the balance sheet. Due to the difficulties in the IT systems, commissions and fees obtained for the loans granted before the year 2009 could not have been decomposed and the balances of deferred revenues corresponding to these loans granted could not have been identified.

**VI. Explanations on financial assets**

The Bank classifies and accounts for its financial assets as ‘Fair value through profit/loss’, ‘Available for sale’, ‘Loans and receivables’ or ‘Held to maturity’. Sale and purchase transactions of the financial assets mentioned above are recognized at the ‘Settlement dates’. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of the investment.

**a. Financial assets at fair value through profit or loss:**

This category has two sub categories: “Trading financial assets” and “Financial assets designated at fair value through profit/loss at initial recognition”.

Trading financial assets are financial assets which are either acquired for generating a profit from short-term fluctuations in prices or dealers’ margin, or are financial assets included in a portfolio and derivative instruments in which a pattern of short-term profit making exists.

Trading financial assets are initially recognized at transaction prices, which are assumed to be the fair value, and subsequently measured at fair value. All gains and losses arising from these valuations are reflected in the income statement.

Other than trading financial assets the Bank has no financial assets at fair value through profit or loss.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

**b. Financial assets available for sale:**

Financial assets available for sale are initially recognized at cost; which reflects their fair values; including the transaction costs. Financial assets classified as available for sale financial assets which do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less impairment, if any.

**c. Loans and receivables:**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not listed in an active market and are not classified as held for trading, financial assets at the fair value through profit or loss or as available for sale. Loans and receivables are initially recognized at cost, which is assumed to reflect their fair value and subsequently recognized at the amortized cost calculated using the internal rate of return method. The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

**d. Held to maturity financial assets:**

Held to maturity financial assets are financial assets with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity that are not classified under 'Loans and receivables'. Held to maturity financial assets are initially recognized at cost which is assumed to reflect their fair value, and subsequently carried at 'Amortized Cost' using the 'Internal Rate of Return'. Profit share income from held to maturity financial assets is reflected in the income statement.

**VII. Explanations on impairment of financial assets:**

At each balance sheet date an assessment is made as to whether there is objective evidence that a financial asset or group of financial assets is impaired. If such evidence exists, impairment is provided for financial asset categories as explained below.

i) Loans and receivables:

If there is objective evidence that the loans might not be collected, the Bank reclassifies such loans to III., IV. and V. groups and provides impairment reserve in accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on November 1, 2006 in the official Gazette numbered 26333 and "Communiqué for the amendment of the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on January 23, 2009 in the official Gazette numbered 27119. For the loans with poor financial position and/or payment capability, the Bank can provide a specific impairment reserve in excess of the amounts calculated using the minimum required rates for the related group.

Collections related to the provisions provided in the current period for such loans are deducted from 'Provisions for Loan losses and Other Receivables' account in the income statement. Subsequent recoveries of amounts previously written off or provisions made in prior periods are included in "other income" in the income statement.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

The Bank provides general provision in accordance with the Communiqué of “Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans” published on November 1, 2006 in the official Gazette numbered 26333.

ii) Financial assets held to maturity:

If there is objective evidence indicating that the value of financial assets held to maturity is impaired, the amount of the loss is measured as the difference between the present value of future estimated cash flows discounted using the original profit share and the carrying value; provision is made for impairment and the provision is associated with expense accounts.

iii) Financial assets available for sale:

If there is objective evidence indicating that the fair value of an available for sale financial asset, for which decreases in the fair value has been accounted under the equity, has been impaired then the total loss which was accounted directly in the equity is transferred from equity to the income statement. Impairment losses recognized in the income statement related to the investments in equity instruments classified as available for sale financial assets cannot be reversed through the income statement. If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on equity instruments cannot be reversed.

**VIII. Explanations on offsetting of financial assets and liabilities**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

**IX. Explanations on sale and repurchase agreements and lending of securities**

The Bank has no sale and repurchase agreements transactions and lending securities transactions.

**X. Explanations on assets held for sale and discontinued operations and related liabilities**

As mandated by the Banking Act 5411 article 57 “banks cannot participate in commercial real-estate and commodity trade with the exception of real-estate and commodity based agreements within the scope of Capital Markets Act No. 2499, and precious metal trade as seen appropriate by the board, and cannot participate in partnerships with firms whose main business activity is commercial real-estate, with the exception of real-estate investment partnerships and companies that finance mortgaged residential estates. The rules and procedures regarding the sales of real-estate and commodities that were acquired due to receivables and debtors' obligations to the bank are determined by the board.”

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

The principles for valuation and accounting for disposal of assets acquired by banks in return for their nonperforming loans are determined by the official communication of “Principles and Procedures on Bank’s Disposal of Precious Metals and Assets Held for Sale” No. 26333 published on November 1, 2006 in the Official Gazette.

Assets that meet the criteria for classification as assets held for sale are measured at the lower of the carrying amount of assets and fair value less any costs to be incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, the sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset (or the disposal group) together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset (or the disposal group) should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal over one year. If such delay arises from any events and conditions beyond the control of the entity and there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or disposal group) can remain to be classified as assets (or disposal group) held for sale. Extension of the period necessary to complete the sale, does not avoid the classification of the related asset (or disposal group) to be classified as asset held for sale.

Although the Bank has assets acquired due to receivables and debtors’ obligations to the Bank, such assets are classified as fixed assets rather than assets held for sale and are amortized due to inability to dispose them or to produce a solid plan for disposal within a year within the provisions of banking legislation.

On the other hand properties acquired by the Bank due to receivables and debtors’ obligations to the Bank are reflected as assets held for sale in the financial statements provided that there is a contracted term sale agreement.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale. Discontinued operations are presented separately in the income statement. The Bank has no discontinued operations.

**XI. Explanations on goodwill and other intangible assets**

Intangible assets are stated at cost adjusted for inflation until December 31, 2004, less provision for impairment, if any, and accumulated amortization and amortized with straight-line method.

The other intangible assets of the Bank comprise mainly computer software. The useful lives of such assets acquired prior to 2004 has been determined as 5 years and for the year 2004 and forthcoming years, as 3 years.

As of June 30, 2011 there is no goodwill related to associates and subsidiaries.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

**XII. Explanations on tangible assets**

Fixed assets are stated at cost adjusted for inflation until December 31, 2004, less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets. The annual rates used for amortization are as follows:

Property	2%
Movables, Leased assets	6.67% - 20%

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date. Leasehold improvements are depreciated over the term of the lease agreements by straight-line method.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than its carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed.

Property held for long-term rental yields and/or capital appreciation is classified as investment property. Investment properties are stated at cost less accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

**XIII. Explanations on leasing transactions**

*Bank as a lessee*

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of these amounts is the lower of fair value of the leased asset or the present value of the lease payments. The direct costs incurred during a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets and if a diminution in recoverable value of the leased asset is identified, a provision for impairment is recognized.

Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

*Bank as a lessor*

The Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Bank presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

**XIV. Explanations on provisions and contingent liabilities**

Provisions and contingent liabilities are accounted for in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (TAS 37).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The bank recognizes provisions for obligations which arose from prior periods in current financial year, only if, the possibility of realization is high and a reliable estimation can be made. A provision is provided if liabilities have been originated as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a “Contingent” liability and is disclosed in the related notes to the financial statements.

**XV. Explanations on liabilities relating to employee benefits**

**a) Defined benefit plans:**

In accordance with existing social legislation, the Bank is required to make severance pay to each employee who has completed over one year of service with the Bank and who retires or quits the employment to receive old age or disability benefits, to fulfill the compulsory military service, because of the marriage (for females) or because of the other compulsive reasons as defined in the laws and whose employment is terminated due to reasons other than resignation or misconduct.

The retirement pay provision recognized in the accompanying financial statements, is calculated based on “Turkish Accounting Standard on Employee Benefits (TAS 19)”, by using the “projection method” and based on upon factors derived using the past experience of the Bank with respect to completion of service period and eligibility to receive retirement pay and discounted by using the current market yield rate of government bonds at the balance sheet date.

The Bank’s employees are not members of any pension fund, foundations, union or other similar entities.

**b) Defined contribution plans:**

The Bank pays defined contribution plans to publicly administered Social Security Funds for its employees as mandated by the Social Security Association. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

## **Kuveyt Türk Katılım Bankası Anonim Şirketi**

### **Notes related to unconsolidated financial statements for the interim period ended June 30, 2011 (continued) (Currency – Thousands of Turkish Lira)**

#### **c) Short term benefits to employees:**

In accordance with “TAS 19”, vacation pay liabilities are defined as “Short Term Benefits to Employees” and accrued as earned and not discounted.

Bank management calculates bonus accrual if it foresees that the budgeted year-end figures approved by the Board of Directors are attainable.

## **XVI. Explanations on taxation**

### ***Current tax***

Effective from January 1, 2006, the effective tax rate has been decreased to 20% in accordance with the Corporate Tax Law No 5520 published and came in force on September 21, 2006. The tax legislation provides a temporary tax of 20% to be calculated and paid based on the tax basis calculated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year, which is calculated over the yearly tax basis.

Corporate tax returns are filed by the twenty fifth day of the fourth month following the balance sheet date and taxes is paid in one installment by the end of that month.

Effective from April 24, 2003, new fixed asset investments over a specific amount, which have an economic life and are directly related with the production of services, are deducted from the annual taxable income amounting to 40% of the cost of the fixed asset. Investment allowances with incentive certificates obtained prior to April 24, 2003, would be subject to 19.8% withholding tax unless the companies choose to convert to the new application. Before the implementation of the new investment incentive application, effective from January 1, 2006, all investment incentives could have been carried forward indefinitely, however, as of January 1, 2006 the investment incentive application was terminated. Unused qualifying capital investment amounts from periods prior to December 31, 2005 could be deducted from the corporate income tax base until the end of December 31, 2008. However, in this case corporate tax rate would be 30%. Furthermore, qualifying capital investments to be made until the end of December 31, 2008 within the scope of the investment projects started before December 31, 2005 would be subject to investment incentives until the end of December 31, 2008. Unused investment incentives accumulated until December 31, 2007 has been deducted from the tax base by the Bank and for the tax base exceeding the investment incentive amount the effective tax rate was 30%. For the year 2008, as the unused investment incentive did not supply a tax advantage, the Bank did not deduct it from the tax base and the effective tax rate was 20%. In both 2010 and 2009 the effective corporate tax rate applicable to the Bank is 20%.

With the decision dated as October 15, 2009 and numbered principal 2006/95 – 2009/144 of the Constitutional Court, the phrase which is added to the end of the first paragraph of Article 69 of Law No. 193 "... only in the 2006, 2007 and 2008 years ..." and "2" figure in (2) paragraph of Article 15 of Law No. 5479 has been cancelled. In this context, as described in the article of Serial No. 276 issued by the Ministry of Finance Income Tax General Communiqué 2.3 "Amounts of investment tax credits calculated over the investments which have been newly started and investments performed between the dates of January 1, 2006- April 8, 2006 can be benefited from in the context of the abolished Article 19 of the Income Tax Act. In this context, regardless of available earnings in the related period, investment incentives calculated over the investment expenditures can be deducted from the tax base, by considering the explanations of the Section 3 of the communiqué and their indexed amounts.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

In accordance with this provision, investment expenditures between January 1, 2006 and April 8, 2006 is 13,130TL. 40% of this amount; TL 5,252; has been calculated as investment incentive amount. TL 6,937 has been calculated by indexation for the periods between 2007 and 2010 and has been deducted from the corporate tax base. Accordingly; a tax benefit of TL 1,387; representing 20% of TL 6,937; has been achieved.

In accordance with the provisions of the code, the amount of investment incentive to be deducted from the tax basis cannot exceed 25% of the related tax base. Tax amount is calculated as 20%- the effective tax rate of the remaining tax base. As the investment allowance amount TL 6,937 is less than 25% of the total tax base, total investment incentive has been deducted from the tax base in year 2010.

The Bank has not benefited from the investment incentives amounting to TL 67,262 arising from the investment incentive certificates which are issued in accordance with the applications before the date of April 24, 2003 and are subject to withholding tax at 19.8% as such investment incentives did not supply a tax advantage in the related periods

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns to their tax offices until the end of 25<sup>th</sup> of the fourth month following the accounting period. The tax authorities have the right to inspect the tax returns and their underlying accounting records in a five years period and can revise the amount of taxes if any errors have been notified during the inspection.

***Deferred tax***

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12"). Deferred tax asset is calculated on all temporary differences other than general provisions to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis.

**XVII. Explanations on additional disclosures on borrowings**

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Bank does not apply hedging techniques on related borrowings.

There are no debt securities issued by the Bank.

The Bank has not issued convertible bonds.

**XVIII. Explanations on share certificates issued**

The Bank has no material costs for issuance of share certificates.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

**XIX. Explanations on acceptances and availed drafts**

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

**XX. Explanations on government grants**

There are no government grants received by the Bank.

**XXI. Explanations on segment reporting**

The Bank operates in three main segments; Corporate and Commercial Banking; Retail Banking; International Banking, Treasury and Investment Banking. Each segment operates with unique products, and the operational results are followed based on these segments.

Segment reporting is disclosed in Section 4, Note VI.

**XXII. Explanations on other matters**

There are no other matters to be disclosed by the Bank.

**XXIII. Additional paragraph for convenience translation**

The effects of differences between accounting principles and standards set out by regulations in conformity with article 37 of the Banking Act No. 5411, the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)****Section four****Information on financial structure****I. Explanations on capital adequacy standard ratio**

Capital Adequacy Standard Ratio is calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", which was published on November 1, 2006 in the Official Gazette numbered 26333. The calculation of Capital Adequacy Ratio includes the methods used in determining the Capital Adequacy Ratio, determination of risk weighted assets and non-cash credits in line with the relevant banking regulation and measuring the market risk and operational risk ratio in line with the same regulation. Based on the "Measurement and Assessment of Capital Adequacy of Banks", the capital adequacy ratio of the Bank is 15.14% (December 31, 2010 – 17.05%).

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

**II. Explanations on market risk**

The Bank has established market risk operations and has taken the necessary precautions in order to manage market risk within its financial risk management purposes under “Risk Management Systems” in accordance with BRSA Regulation on “Banks’ Internal Systems” published in the Official Gazette No. 26333 dated November 1, 2006.

Organizational and functional internal applications of risk management systems have been determined by the Board of Directors in accordance with the regulation mentioned above. The Bank approved the regulation related to the “Risk Management Systems and Working Procedures and Principles of the Risk Management Presidency”. With this internal regulation and Treasury Directorship’s Marketing and Liquidity Risk Management Policy and Application Procedures which are also approved by the Board of Directors, the procedures with respect to management of market risk are determined. Additionally, the Board of Directors, without transfer of its responsibility, requires the consent of the risk management group and the top management of the Bank to take necessary actions in order to identify, measure, control and manage the risks that the Bank is exposed to.

Additionally, in accordance with the official communication on “Measurement and Assessment of Capital Adequacy of Banks”, published in the same Official Gazette as mentioned above, and in the context of other related regulations, the Bank has started to calculate and report to BRSA the amount subject to market risk with the Standard Method and the amount thus calculated has been considered in the capital adequacy calculation of the Bank.

The capital which should be kept against general market risk and specific risks, is calculated and monthly reported in accordance with the “Marketing risk measurement process with standard method” which is the third chapter of “Calculation of Marketing Risk Amount” of the “Communiqué on the “Measurement and Assessment of Capital Adequacy of Banks”. As of June 30, 2011, the details of market risk calculated in accordance with the mentioned method are as follows:

**a. Information related to market risk:**

	<b>Amount</b>
(I) Capital Requirement to be Employed For General Market Risk - Standard Method	1,099
(II) Capital Requirement to be Employed For Specific Risk - Standard Method	72
III) Capital Requirement to be Employed For Currency Risk - Standard Method	4,368
(IV) Capital Requirement to be Employed For Commodity Risk - Standard Method	5,250
(V) Capital Requirement to be Employed For Settlement Risk - Standard Method	-
(VI) Total Capital Requirement to be Employed For Market Risk Resulting From Options - Standard	-
(VII) Total Capital Requirement to be Employed For Market Risk in Banks Using Risk Measurement	-
(VIII) Total Capital Requirement to be Employed For Market Risk (I+II+III+IV+V+VI)	10,789
(IX) Amount Subject to Market Risk (12.5 x VIII)	134,863

**III. Explanations on currency risk**

Foreign currency risk represents the Bank's exposure to loss due to the changes in foreign currency exchange rates. All foreign currency assets, liabilities and foreign currency forward transactions are considered in calculation of capital to be employed for foreign currency risk according to Standard Method.

The Bank monitors daily the designated limits set by the Board of Directors and additionally observes the possible value changes in foreign currency positions. The limits are determined and followed both for the net foreign currency position and for the cross exchange rate risk within the position. As a tool of foreign currency risk management, foreign currency forward transactions are used when necessary to mitigate the risk.

As of June 30, 2011, the Bank carries a net foreign currency long position of TL 27,663 (December 31, 2010 – TL 31,165 long position) comprising TL 264,829 long balance sheet position (December 31, 2010 - TL 440,788 long position) and TL 237,166 off balance sheet short position (December 31, 2010 - TL 439,037 short position).

The announced current foreign exchange buying rates of the Bank as of June 30, 2011 and the previous five working days are as follows (Full TL):

	23/06/2011	24/06/2011	27/06/2011	28/06/2011	29/06/2011	Balance sheet evaluation rate
<b>USD</b>	1.6068	1.6183	1.6233	1.6354	1.6324	1.6302
<b>CHF</b>	1.9054	1.9204	1.9360	1.9550	1.9547	1.9549
<b>GBP</b>	2.5953	2.5874	2.5966	2.6103	2.6046	2.6111
<b>JPY</b>	2.0000	2.0040	2.0170	2.0220	2.0160	2.0070
<b>EUR</b>	2.3121	2.3040	2.3109	2.3211	2.3303	2.3492

The simple arithmetic averages of the major current foreign exchange buying rates of the Bank for the thirty days preceding the balance sheet date are as follows (full TL):

	Monthly average FC purchase rate
<b>USD</b>	1.5945
<b>CHF</b>	1.8910
<b>GBP</b>	2.5874
<b>JPY</b>	1.9765
<b>EUR</b>	2.2924

(\*\*\*) Does not have any effect to the net off-balance sheet position.

## Kuveyt Türk Katılım Bankası Anonim Şirketi

### Notes related to unconsolidated financial statements for the interim period ended June 30, 2011 (continued) (Currency – Thousands of Turkish Lira)

Foreign currency amounts that are not included in the currency risk table due to the legislation related to calculation of foreign currency net position to equity standard ratio, are explained by their gradation in the financial statements below;

- Derivative financial assets held for trading : TL 38,065 (December 31, 2010 – TL 16,519)
- Prepaid expenses : TL 53 (December 31, 2010 – TL 5)
- Derivative financial liabilities held for trading : TL 13,567 (December 31, 2010 – TL 8,561)

Receivables/Payables related to derivative financial instruments include foreign currency purchase/sale transactions that are amounting to;

- Forward foreign currency purchase transactions: TL 184,093 (December 31, 2010 - TL 269,109)
- Forward foreign currency sale transactions: TL 170,596 (December 31, 2010 TL 292,827)

#### Foreign currency sensitivity:

The Bank is mainly exposed to EUR and USD currency risks.

The following table details the Bank's sensitivity to a change of 10% in the USD and EURO exchange rates. A negative amount indicates a decrease in profit/loss and equity when the TL weakens with ratio of 10% against USD and EUR.

	Change in currency rate in %	Effect on profit or loss		Effect on equity	
		Current period	Prior period	Current period	Prior period
USD	10%	1,724	(497)	-	-
EURO	10%	1,274	469	-	-

#### IV. Explanations on liquidity risk

Liquidity risk represents risk of not having sufficient cash or cash inflows to completely meet the cash outflows on time as a result of imbalance in cash flows.

Liquidity risk may also result from inability to penetrate to market or change positions quickly at suitable prices and amounts due to market disruptions or barriers. To mitigate liquidity risk, the Bank diversifies funding sources (customer funds and funds borrowed from abroad) and keeps a certain level of assets as cash and cash equivalents.

The Bank determines the liquidity position daily and the treasury department manages market transactions in accordance with the liquidity position of the Bank. Indicators of liquidity conditions are analyzed at the weekly Asset/Liability meetings with the participation of top management.

**V. Explanations on business segments**

The Bank operates in Corporate and Commercial Banking, Retail Banking, International Banking – Treasury and Investment Banking sectors.

Corporate and Commercial Banking: to meet the financial needs of the customers', unique cash flow and financial solutions are provided to customers through loans, non-cash loans, foreign trade financing services and similar customized products. Domestic and foreign business opportunities are supported by using different corporate banking instruments to serve the sustainability of the production of entities.

Retail Banking; there are four main activities: fund collection, consumer financing, credit cards and alternative distribution channels. The Bank serves in the range of products of profit share accounts creation, banking services, Trade Finance, Checks, POS services, Credit Cards, ATM services, Online Banking and Mobile Banking in these fields.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

International Banking: In International Banking, the relationships with foreign correspondent banks and investment institutes are executed directly or via branches abroad, representative offices and agencies. The aim of international banking is to enable foreign trade financing and develop mutual long term financing agreements with foreign banks. The Matched Murabaha is offered to SME's and international investors to meet the financing needs of SME's with international funds. Besides supplying syndicated loans for the Bank, investment banking also supplies syndicated loans in corporate basis for the firms and groups in Turkey. The Treasury in addition to monitoring foreign currency position and liquidity of the Bank, also conducts spot and forward transactions in TL or foreign currencies, performs derivative transactions (Forward, SWAP) with banks and customers, trades of gold within the context of membership of Istanbul Gold Exchange, trades share certificates in Istanbul Stock Exchange and international markets and conducts Murabaha transactions with foreign banks.

9. Main guidelines for liquidation process of uncollectible loans and other receivables:

Loans and other receivables, which were deemed uncollectible according to the “Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans” published in the Official Gazette No. 26333 dated November 01, 2006 and for which a full impairment provision has been made, are written-off per the decision of the Bank top management. In the first six months of 2011, non-performing loans amounting to TL18,347 have been written-off (December 31, 2010 – TL 25,184).

10. Information on the write-off policy:

The Bank ‘s write-off policy is to write-off the loan receivables that have been already transferred to legal follow-up and fully provided for and for which there is no possibility of collection through legal process and for which there is no collateral. Such loans are written off as per the decision of top management.

#### h. Information on subsidiaries (Net):

1. Although the Bank has control power over the management and capital of its non-financial subsidiaries, these subsidiaries do not confirm to the definition of financial subsidiary in accordance with “Regulation related to the Preparation of Consolidated Financial Statements by Banks” published in the Official Gazette No. 26340 dated November 8, 2006; hence they have not been consolidated. In prior periods, the total assets of the Bank’s subsidiary Kuwait Turkish Participation Bank Dubai Ltd, founded on November 25, 2009, had been less than 1% of the total assets of the parent Bank and was therefore not consolidated. As it has surpassed the 1% threshold, Kuwait Turkish Participation Bank Dubai Ltd has been consolidated in the September 30, 2010 financial statements for the first time. The Bank has reflected its subsidiaries at restated cost less any provision for impairment in its financial statements until December 31, 2004.

2. Information on subsidiaries:

(\*) The Bank has sold 51% of equity shares of Körfez Gayrimenkul, to Kuwait based Hayat Investment Company for USD 10,613,000 (TL 15,729) and TL 2,450 on November 23, 2009. However, the Bank has bought back 51% of Körfez Gayrimenkul A.S. from Hayat Investment Company under the same conditions; USD 10,572,000 (TL 16,840) and TL 2,450 on June 10, 2010. Consequently Körfez gayrimenkul has been classified back to "Subsidiaries" account and additional TL 9.978 impairment has been booked.

(\*\*) The Bank has bought %25 share of the joint venture, called Körfez İnşaat İş Ortaklığı, which was established by one of its non financial subsidiary Körfez Gayrimenkul İnşaat Taahhüt Turizm Sanayi ve Ticaret A.Ş. and a third party company who have 75% and 25% stakes, respectively. The Bank has bought the 25% stake of the third party company in Körfez İnşaat İş Ortaklığı for a total consideration of TL 22,589 in exchange of releasing the debt of the third party company to the bank amounting to TL 15,888 and taking over the debt of the third party company to Körfez İnşaat İş Ortaklığı amounting to TL 6,701. The purchase price has been determined based on the expected discounted future cash flows of Körfez İnşaat İş Ortaklığı. Afterwards the Bank has transferred 8% of the joint venture shares, amounting to TL 7,229, to Körfez Gayrimenkul İnşaat Taahhüt Turizm Sanayi ve Ticaret A.Ş. in exchange of release of its debt to Körfez İnşaat İş Ortaklığı amounting to TL 6,701 and for a cash consideration amounting to TL 528.

(\*\*\*) The Bank has paid capital commitments of TL 7,600 to its subsidiary Körfez Tatil Beldesi Turistik Tesisler ve Devremülk İşletmeciliği San. Ve Tic. A.Ş. on February, 2011 and TL 26,000 to its subsidiary Körfez Gayrimenkul İnşaat Taahhüt Turizm Sanayi ve Ticaret A.Ş. on April, 2011.

for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

3. Information on finance lease contracts:

The Bank determines the settlements of the financial lease agreements in accordance with related legislations. Payment terms and amounts may be rearranged with additional agreements upon customers' requests. On the agreements, the Bank gives the customer the option to buy the related property. According to the Financial Lease Law, if a customer does not fulfill its obligations, the Bank sends a notice to the customer and informs them that if the obligations are not fulfilled within 60 days the financial lease agreement will be terminated. If the customer does not fulfill its obligations in 60 days, the Bank takes legal action against the customer. Non performing finance lease receivables amounting to TL 9,738 are included in the non-performing loans (December 31, 2010 – TL 8,111).

Impairment provision amounting to TL 5,504 (December 31, 2010 – TL 4,832) for financial lease receivables are included under the specific provision account under loans in the balance sheet.

**k. Information on derivative financial assets for hedging purposes:**

None (December 31, 2010 – None).

**l. Information on deferred tax asset:**

In accordance with the related regulations deferred tax asset calculated as of June 30, 2011 is TL 18,041 (December 31, 2010 – TL 14,882) and deferred tax liability is TL 10,543 (December 31, 2010 – TL 6,411).

	<b>Current period</b>	<b>Prior period</b>

Provisions for non-cash loans	8,978	8,035
Other	-	-

2. Information on provisions related with foreign currency evaluation difference of foreign currency indexed loans: As of June 30, 2011, effect of decrease in exchange rates on foreign currency indexed loans amounting to TL 670 (December 31, 2010 – TL 12,542) and TL 2,770 for leasing receivables (December 31, 2010 – TL 6,341) is offset against loans and receivables.

3. Information on other provisions:

	<b>Current period</b>	<b>Prior period</b>
General provisions for possible risks	-	4,600
Provisions for non- liquidated non cash loans	13,974	-
Provisions for Cheque books (*)	19,314	-
Provisions from equity/profit sharing accounts	4,688	732
Other	460	10

(\*) According to temporary article 2 of "Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be Set Aside", the Bank recognizes provisions for non liquidated non-cash loans and check books of customers who have any other non-performing exposures within the Bank.

4. Information on provisions for employee benefits:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 7,725 (December 31, 2010 – TL 7,080), vacation pay liability amounting to TL 2,837 (December 31, 2010 – TL 183) and performance premium which has not been paid yet. There is no performance premium which has not been paid yet as of June 30, 2011 (December 31, 2010 – TL 25,993).

Under the Turkish Labor Law, the Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or earns the right to retire.

The amount payable consists of one month's salary limited to a maximum of TL 2,623 (December 31, 2010 – TL 2,517) for each year of service. The liability is not funded, as there is no funding requirement.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended June 30, 2011 (continued)  
(Currency – Thousands of Turkish Lira)**

The reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	<b>Current period</b>	<b>Prior period</b>
Discount rate (%)	10	10
Estimated increase rate of salary ceiling (%)	5.1	5.1

Movements in the reserve for employment termination benefits during period are as follows:

	<b>Current period</b>	<b>Prior period</b>
Balance at the beginning of the period	7,080	4,759
Provisions recognized during the period	1,597	3,401
Paid during the period	(952)	(1,080)
<b>Balances at the end of the period</b>	<b>7,725</b>	<b>7,080</b>

**h. Explanations on tax liability:**

1. Explanations on current tax liability:
